## RUSSIANS STILL CRUSHING AUSTRIANS

### CAPTAIN OF WARSPITE PRAISES HIS GREAT SHIP; DESCRIBES HER PART IN THE BATTLE OF JUTLAND

Declares Her Powers of Resistance Are Amazing; Will Be Sailing Seas Months Before German Squadrons Ready to Venture Forth Again; Division of Which she Formed Part Engaged Whole German Battle Fleet; Captain Saw Hits Her Guns Made

London, June 12.—Captain E. M. Phillpotts, commander of the super-dreadnought Warspite, which the Germans claim to believe they sank, discussed the battle of Jutland on Saturday with an Associated Press correspondent. Captain Phillpotts was very modest and minimized his own part in the battle, but he was full of praise for his men and what he termed "the amazing powers of resistance of his ship."

"I am not surprised that there have been reports that the Warspite was sunk," he said, "as from our position between our fleet and the German battleships our escape from such a fate was simply miraculous. Several times we disappeared from sight in the smoke and spray. Even some of our own officers on other ships believed the gallant dreadnought had sunk. As we left the fighting line we disappeared in a complete veil of spray."

With Beauty.

"The division of dreadnoughts of which the Warspite was one was with the battle-cruisers. We were engaged practically as soon as they were, but the Warspite did not fire until a few minutes after the others had been in action, as I was not satisfied with the arrangements."

"We soon knew we were up against the whole German battle fleet, but we were aware that Admiral Jellicoe could come up."

"You ask me what results I saw that our fire had on the German ships. It is quite impossible to give a definite reply, as the captain of one of a row of dreadnoughts about 500 yards apart, steaming in battle line, must keep an eye on his ship to make the necessary swerves. The flag captain has a chance to see with some degree of accuracy what damage has been done to the enemy, but the others are too busy keeping their places in the line and doing damage to keep a glass to the eye to see what the enemy is suffering. However, I saw that we registered hit after hit, enough to convince me that the Germans got a hiding which will keep them in port for many months to come."

Whole Enemy Fleet.

"After two hours in action, during most of which our division of dreadnoughts engaged the whole German battle fleet in an effort to protect our battle-cruisers until Admiral Jellicoe could come up, the Warspite's steering gear went wrong and she ran amuck among the enemy. It must have annoyed the German gun-pointers exceedingly to attempt to gauge our erratic movements, for soon we were almost in the midst of the German dreadnoughts. I know of six German dreadnoughts which concentrated their fire on the Warspite and there may have been others I could not see."

"We have received considerable credit for protecting, during our difficulties, the cruiser Warrior, which was practically helpless, but I must admit that sheer good fortune was responsible for this."

Repaired Quickly.

"As I said before, the fact that we got out was an absolute miracle. Once repairs had been made—and they were made quickly—we wanted to return but found we were not popular. Suffice it to say that the Warspite was present to fill the line and the possibility of our running amuck among our own friends was not welcomed."

"The Warspite will be sailing the seas months before the German fleet will be ready to come out again."

"As for the general result of the action, the Germans were defeated and driven into their own ports with losses they can ill afford."

### Brusiloff's Forces About to Take Czernowitz

With Russian troops in the immediate vicinity of, or perhaps already in, Czernowitz, and other Russian forces pressing forward to the west of Bucacz, the indications are that the whole of Bukovina is on the point of passing from Austrian to Russian control.

### RUSSIANS AT CZERNOWITZ; STILL DRIVING; CAPTURED ABOUT 108,000 MEN SO FAR

The above map shows the relation borne to the remainder of the line by Bukovina, which appears to be about to pass into the hands of the Russians. The heavy line indicates the position of the battle-line before the Russians started their great offensive a week ago yesterday. The broken line shows the position of the line on Friday night. Since that time the Russians have pressed forward steadily until it extends through a point near Hirczany. At the extreme south the Russians have advanced to Czernowitz.

War Office at Petrograd Announces Troops Yesterday Approached Outskirts of Capital of Bukovina; Other Forces Moved Forward and Attacked the Bridgehead at Zileszky

Besides Prisoners Czar's Soldiers Have Taken Enormous Quantities of Supplies, Including Guns, Machine Guns, Ammunition, Field Kitchens, Searchlights; A Colossal Coup

Petrograd, June 12.—The Russian troops yesterday approached the outskirts of Czernowitz, the capital of Bukovina, the war office announced to-day.

As the Russian troops drew near Czernowitz, there were numerous explosions caused by the Austrians within the city.

The statement also says that Russian troops attacked the bridgehead at Zileszky.

Geneva, June 12.—The Austrian forces are evacuating Czernowitz, the capital of Bukovina, before the Russian offensive, according to advices received here to-day.

Petrograd, June 12.—In the fighting on Saturday on the front in Volhynia and Galicia the Russians took 401 officers and 35,100 men. They also captured 30 guns and an enormous quantity of booty.

The official statement issued last night added that the army of Gen. Techtitskyn alone, operating in the direction of Czernowitz, Bukovina, overwhelmed the Austro-Hungarians and took 18,000 prisoners.

Since the present Russian offensive was started, the emperor's troops have taken about 108,000 prisoners.

### Italian Cabinet Resigned; One Will Be Formed Quickly

London, June 12.—The Italian cabinet, headed by Premier Salandra, resigned yesterday. This action of the ministry resulted from the failure of the Chamber of Deputies on Saturday to pass a vote of confidence in the government following the presentation of the budget of the ministry of the interior.

A dispatch received here from Rome by wireless said the ministerial crisis would be ended quickly. All political parties, it was contended, favored a national ministry including Baron Sonnino, who has been minister of foreign affairs, and the present military minister.

### M. BRIAND'S VISIT IMPORTANT EVENT

Complete Harmony of Views Prevailed at Conference in London

Paris, June 12.—It is certain that the visit of Premier Briand, General Joffre and General Roques, French minister of war, to London last week, was marked by absolute harmony of views on all military points covering all the fronts.

The Temps, declaring that the exchange of views indicates perfect agreement between the French and British governments, adds:

"This is no banal diplomatic formula, but an agreement which soon will be translated into action of the highest importance for the successful prosecution of the war."

### NEWFOUNDLAND'S LOAN.

Montreal, June 12.—Newfoundland has negotiated a loan with William A. Reid & Company, of New York, and Lee Higginson & Company, of Boston, of \$5,000,000. The securities take the form of three-year five per cent. gold bonds issued by the colony.

The text of the official statement follows:

"Our offensive in Volhynia, Galicia and Bukovina obtained fresh successes yesterday. The enemy armies continue to suffer enormous losses in prisoners alone."

"The fierce attacks of our troops are throwing into our hands thousands upon thousands of prisoners and booty of all kinds, the exact estimation of which is as yet impossible."

"For instance, in a single sector on the enemy front we captured 21 searchlights, two convoys, 29 field kitchens, 47 trains of machine guns, 12,000 pounds of barbed wire (a pound is equivalent to 28 pounds), 1,000 concrete planks, 7,000,000 cubes of concrete, 10,000 pounds of coal, enormous depots of ammunition and quantities of arms and other materials."

Lot of Ammunition.

"In another sector we captured 30,000 rifle cartridges, 300 boxes of machine gun cartridges, 200 boxes of hand grenades, 1,000 rifles, four machine guns, two range finders and a Norton portable pump for the extraction of drinking water."

"The capture of such enormous war materials prepared by the enemy for various operations affords proof of how opportune was our coup."

"During the fighting yesterday we took as prisoners one general, 400 officers and 35,100 soldiers. We also captured 30 guns, 13 machine guns and 5 bomb throwers. This makes the total trophies in the recent operations 1 general, 1,649 officers and more than 106,000 soldiers and 124 guns, 150 machine guns and 58 bomb throwers."

German Claim.

Berlin, June 12.—The Russian troops attempted to advance northeast of Bucacz, Galicia, and were repulsed, the war office announced to-day. More than 1,300 Russians were captured.

The statement says:

"German and Austro-Hungarian troops belonging to the army of Gen. von Bothmer repulsed Russian detachments which were advancing northeast of Bucacz, on the Strypa. More than 1,300 Russians remained in our hands. Otherwise the situation of the German troops is unchanged."

### 130 SOLDIERS CAME ON THE MISSANABIE

Montreal, June 12.—The Canadian Pacific liner Missanabie arrived here this morning via Quebec from Liverpool. Included in her passenger list were 130 officers and men of the Canadian overseas forces, the majority invalided home. The privates and a number of the officers disembarked at Quebec.

### GERMANS REPULSED EAST OF FT. VAUX

Violent Artillery Duels North of Ft. Souville and Ft. Tavaannes

Paris, June 12.—German infantry attacked French positions east of Fort Vaux, on the Verdun front east of the Meuse, last night. The assault failed entirely, the official report issued this afternoon says.

The artillery fighting has been intense north of Fort Souville and Fort Tavaannes, northeast of Verdun.

West of the Meuse there was a heavy artillery action in the vicinity of Chattancourt.

The text of the statement follows:

"West of Soissons our artillery destroyed works of the enemy and brought about an explosion within his mines."

"On the left bank of the Meuse there has been a bombardment in the region of Chattancourt. On the right bank the artillery fighting has been intense north of Fort Souville and Tavaannes."

"Last night an attack on our trenches east of Fort Vaux was completely repulsed."

German Claims.

Berlin, June 12.—The official report issued to-day, says:

"In the Champagne, north of Perthes, German reconnoitering detachments penetrated French positions and after a short fight took three officers and more than 100 men prisoners and captured four machine guns. They returned to their own trenches in accordance with our plans."

"On both sides of the Meuse the artillery was active. The situation is unchanged."

### Demidovka Is Taken From the Austrians By the Czar's Troops

Petrograd, June 12.—Russian forces have captured Demidovka, on the Mylinof-Berestechno road, from the Austrians, according to announcement made by the war office to-day.

### GERMAN CASUALTY LISTS AT 2,924,586

Up to End of May Berlin Had Admitted That Figure

London, June 12.—Germany up to the end of May had admitted the loss of 2,924,586 soldiers, of whom 734,412 were killed, according to a British official tabulation of the German casualty lists given out here to-day. The compilation does not include German losses in naval engagements or in the fighting in the German colonies.

The British official statement quotes the German casualty lists for the month of May as placing the total German losses in killed, prisoners and wounded at 102,507. This number, it is pointed out, brings the total losses admitted by the Germans, exclusive of naval and colonial casualties, to 2,924,586.

The German figures in the May lists are as follows: Dead, 22,471; wounded, 72,975; prisoners and missing, 7,961. Total, 102,507.

The German official lists of casualties up to the end of May give these totals: Dead, 734,412; wounded, 1,851,652; prisoners and missing, 328,522. Total, 2,924,586.

It has been clearly established that the Berlin war office is far behind in announcing casualties. Some of the lists given out recently bore names of men killed or wounded as far back as last September. Thus the total of the German casualty lists gives an inadequate impression of Germany's real losses.

### EACH BATTALION DID FULL SHARE

Canadian Units Counter-Attacked Near Ypres With Fine Dash

### RETOOK SOME GROUND FROM THE GERMANS

Ottawa, June 12.—The following communication has been received from the Canadian general headquarters at the front:

"Canadian Headquarters in France, via London, June 11.—During the first week of the month heavy fighting occurred on the Canadian front. Early in the morning of June 2 the enemy opened a tremendous bombardment opposite the area of our left division."

"The weight of fire was greater than any hitherto experienced by the Canadian troops and in spite of the retaliation of our artillery continued in steadily increasing volume for four hours. The front and support trenches were damaged severely, and in many places obliterated. Entanglements were destroyed."

Two Generals.

"Maj.-Gen. M. S. Mercer and Brigadier-Gen. V. A. S. Williams had arranged to inspect certain front works on that morning. These generals were caught in the bombardment and unfortunately lost. It is reported that when last seen, Maj.-Gen. Mercer had been struck on the head by a flying sandbag, and Brig.-Gen. Williams had been wounded in the face."

"All along the line our troops clung to their shattered trenches with the greatest gallantry. When the bombardment ceased the enemy advanced and everywhere encountered desperate resistance. At various points there was fierce hand-to-hand fighting. Officers and men rivaled each other."

"Our losses were heavy, but the Germans paid a high price for every captured trench."

"Counter-attacks were quickly organized. As a result, some of the lost ground was recovered and a new line established."

With Dash.

"The following morning an organized counter-attack still further improved our positions. In order to take part in this operation some of our battalions were obliged to move across the open under intense shell fire and through heavy barbed wire. Nowhere did the line waver. Each battalion advanced and carried through its appointed task with splendid dash and unflinching determination."

"Since then sections of our defenses have been subjected at intervals to heavy bombardments. At one or two points the enemy has attempted to attack, but in each case has been repulsed with loss."

### DEEDS OF HEROISM DONE BY CANADIANS

Fought Near Ypres Without Any Thought of Giving Up

### SOME OF INCIDENTS THAT WERE OBSERVED

London, June 12.—Philip Gibbs, in a dispatch to the Chronicle dated "With the British Armies in the Field," describing the attack on the Canadian front on the Ypres salient on June 2, recounts many instances of Canadian heroism under the terrific German onslaught. He says:

"Although the order for retirement had been given, single figures here and there were seen to get over the broken parapets and go forward to meet the enemy half way. They died, to a man, fighting."

"The officer in command of one of the support companies brought several men out of a trench, but did not follow on. He turned again, facing the enemy, and when last seen fired his revolver and then flung it into the Germans' faces."

Every Man Fought.

"Near a place called Cumberland Dugout was a small square between the trenches, and here Lieut.-Col. Shaw, commanding a battalion of Canadian riflemen, called a small party of men and made a last stand against the Germans, who worked around through a gap and in the rear and advanced upon him. They fought it out there, each man with any weapon that remained to him: bomb, bayonet, revolver or trench spade. The Canadians called to the Germans, daring them to come on. They were fierce shouts, louder than the cries of the wounded and the last groans of the men who had fallen. The Germans were kept at bay some time, but flung their bombs into the square of men, so that few remained alive. When only eight men were fighting among the bodies of their comrades, these tattered and blood-splashed men, standing there fiercely, contemptuous of death and the enemy, were ordered to retire by the last officer among them."

Self-Sacrifice.

"There were many acts of self-sacrifice done by the Canadian lads. I heard one of a young private soldier from Kamusack, Sask. He had been crouching behind the shelter of some sandbags with one of his officers and an N. C. O. and a man who was his best friend. All three men were wounded and this young soldier from Kamusack had banded them, but his comrade was most badly wounded, and when the shell fire lifted and there was chance of escape, it was utterly impossible to move him. 'You go,' this young soldier said to the other wounded men, who were just able to walk, and then he sat down again by his comrade's side and said: 'I'm staying.' So he stayed with his friend."

## LIEBKNECHT FLEW JUNKERS; SAID GERMANS HAVE BUT THREE RIGHTS, CARRY GUNS, PAY AND KEEP QUIET

By a Lie German Workingman Was Forced Into War and by Like Lies Govt. Expects to Induce Him to Go on With War, He Declared in Speech in Palace Grounds in Berlin; Uncensored Account Reaches America

New York, June 12.—The following uncensored article, sent here by mail from Berlin by a follower of Dr. Karl Liebknecht, the ultra radical Socialist leader, who was arrested in Berlin on May Day and has been held in prison ever since awaiting trial, is the first full account of the May Day riots which took place in the imperial palace grounds in Berlin to reach this continent. Dr. Liebknecht made a virulent attack on the German government and that led to his arrest. Later the propriety of the arrest was the subject of a heated debate in the Reichstag. The charge against Dr. Liebknecht is high treason, the penalty for which is death.

The article follows:

Berlin, May 12.—In the morning with three other comrades I reach Hortensienstrasse, where Comrade Liebknecht lives. We enter No. 14, climb up the stairs, ring his bell. Comrade Liebknecht opens the door himself. He is thin, his hair looks unusually black and his face is deathly

pale. He walks like a dead man, walking with grim steps. He leaves us and soon returns with his wife; she is a Russian. She nods welcome to us all. Suddenly a terrible fear comes to me. No one has spoken a word, yet we all feel that we are in the presence of a supreme moment. From Comrade Liebknecht's grim silence we judge that he is about to hurl prudence to the four winds and defy the government.

He hands out, one to each of us, a copy of the speech which he will deliver. So far not one word is spoken. While we are hurriedly reading his speech, which is to be delivered within a few hours, he remarks, "I have several thousands of these printed."

We have finished reading the prospectus which will make history and send him to prison. Then we go into conference.

We have been with him just an hour. We leave him.

Shortly after 2 p. m. on the same afternoon, May Day, I have taken a hasty lunch at the Central hotel. As I near the door I hear the footsteps of great multitudes. As far as I can see, all the streets and side streets are full of surging, silently moving human beings; all moving in the direction where the May Day demonstration is to take place. These are men and women, mostly women. The men among them are mostly over 50. Suddenly it becomes apparent to me that there are more children in the crowd than men and women together. As they march I notice that I cannot see one in the crowd who has a smile on her or his face. Along the route no one is cheering them. I had never seen such immense crowds in the streets of Berlin. Not even during the Agadir crisis did the streets of Berlin hold such multitudes. The crowds move as though they are a part of a funeral procession. They are all sad, very sad.

I recognize a group of comrades in the crowd. I rush in and join them. Mund halten (keep your mouth shut) is the unwritten rule, and every one seems to observe it strictly.

Guards Rode Through Crowd.

Some one has turned the head of the procession into Unter den Linden. We do not know why; very few of us have noticed it anyhow. We suddenly see a platoon of mounted guards dashing through the crowd, but they are riding on the sidewalk. The part of the procession that was marching on the sidewalk rushes to the middle of the street in order to escape being trampled upon by the mounted guards. Another group of mounted guards rides hurriedly, and still another follows. The people in the procession all about me do not seem to notice them. Not even a whisper is heard. Their footsteps have a strange sound to my ears.

On reaching the palace grounds I see in the distance five persons. From their elbows up they tower over the heads of the multitude surrounding them. I leave my friends and elbow my way through the thick crowd. I explain my impolite advance on the ground that I am a reporter on a party (Socialist) paper. I finally reach the spot where Comrade Liebknecht and other comrades are standing. The crowds are close where they are standing, and I cannot make out whether they are standing on a raised platform or in a motor car. I am about twenty or twenty-five feet from the speaker.

Suddenly one of the comrades near Dr. Liebknecht raises his hand and at once proceeds to speak. The multitude is anxious to hear him. Every one is sounding "hush" in order to obtain silence, and thus making more noise. Dr. Liebknecht uncovers his head; some one near by offers to relieve him of his hat. Deathly silence reigns all about the grounds. The interior of a cathedral could not be more silent. The doctor begins:

Liebknecht's Speech.

"Comrades and friends." They start to cheer him. He holds up his hand forbidding them, then he resumes:

"Some years ago a witty Socialist observed that in Prussia we Germans have three great rights, which are: We can be soldiers, we can pay taxes and we can keep our mouths shut. The Socialist who made this observation made it with a grim humor, but to-day the humor of it is must be disconnected from it—it is all too grim. Especially in these days this observation is too true. To-day we are sharing these three great Prussian state privileges in full. Every German citizen is given the full privilege of carrying a rifle in any manner. Even the Boy Scout has been incited to play the ridiculous role of a soldier. They have thus planted the spirit of hate deep in his youthful soul. Meanwhile the old Landsturm is forced to perform forced labor in invaded countries, in spite of the fact that under the laws of the imperial constitution he cannot be called out for any other purpose than for the defence of the fatherland.

"As for his second privilege—his right to pay taxes—in this respect the German citizen is, up to the present time, far ahead of his brothers in foreign lands whom he is engaged in exterminating. And yet more privileges of this kind are awaiting him in the days to come—after the end of the war. The high taxes which the German people have paid so far are insignificant compared with the great burdens which he must carry after the war, and for which his masters are daily preparing him with such touching delicacy of patriotic sentiment through the medium of the official press.

No Complaint.

"The new German has the unquestionable right to maul halfen (holding his tongue). Recently our official press has been flooded by authoritative and pharisaic exhortations: 'soldiers' wives that they must not, for God's sake, complain so much about the scarcity of food. Keep your mouth shut when hungry; keep your mouth shut when your children are hungry; keep your mouth shut when your children want milk; keep your mouth shut when your children cry for bread; keep your mouth shut and write no letters to the front."

Outside of Germany these remarks might sound like the stock phrases of a professional agitator, but not so in Germany, at least not in these days. I carefully watched for the effect of these remarks all about me, and I saw no pair of dry eyes.

Amid tense silence the doctor continued:

"In a recent issue the mouthpiece of the Pharisee, the Muenchener Neuesten Nachrichten, complains thus (reading from a clipping):

"Our soldiers do not always receive from their dear ones at home the best encouragement to hold on. A soldier on furlough who before obtaining leave had performed his duty to his fatherland unflinchingly and gone through many hardships with good humor, after a week's home returned to the front with a sad face, worrying day and night about his dear ones and the pretended scarcity at home."

Food Prices Beyond Workers.

"Pretended scarcity certainly is palatable, especially when one is reminded of the fact that our police is weighing the bread, that fat, meat and margarine have reached a price that is beyond the probable reach of the workingman."

"Another well nourished Pharisee exclaims, 'Where is scarcity to be found?' and no doubt after having partaken of a good dinner he preaches with these words: 'We must teach ourselves at home how to manage to get along in our homes with as little as possible. But of course in large families with the breadwinner being now totally absent, this sum must be replaced by the creation of a relief fund so that there may not be any serious want.' Exactly, but under no circumstances must the people complain of hunger. It annoys the soldier terribly and cripples his fighting power. Therefore do not write complaining letters to the front. In other words, you wives of soldiers, hide the truth from your husbands; in fact, lie to them."

"The old proverb says, 'The mouth speaks out of the fullness of the heart.' And if her children's stomachs are empty it is hard for the wife not to mention the fact to her far away soldier husband that it is hard to provide his children with food while he is offering his life for his country. But if it is not found possible for your masters to prevail upon you to 'keep your mouths shut,' then they resort to a more practical means. They have a very simple means of stopping these annoying complaints. The Prussian censors are now supervising these letters of wives at home to their husbands at the front. They simply do not allow to go through—Poor and unfortunate German soldier! He deserves pity! At the command of the militarist government he has gone into the enemy country, and at the command of the government he must steal from other nations. He is required to perform difficult services. The sufferings that he endures are past description.

Women Must Keep Silent.

"About him everywhere shells and bombs sow death and destruction. His wife and children at home are suffering want and hardship; she looks about her and finds her children crying for bread. She is desperate, but she must not appeal or complain to any one. She must hold her tongue and suffer inwardly. But how can she silence her children? She must not even share the sympathy of her husband at the front, because that cripples her soldier husband's fighting powers. Her soldier husband must 'hold on' and 'steal' in the land of his neighbors. He must hold on and 'suffer' because the capitalists, the hurrah patriots and the armor plate kings have willed it so. Every one must keep his or her mouth shut, for the war profiteers must make money out of the want and misery of the wives and their husband soldiers at the front."

"By a Lie German workingman was forced into the war, and by like lies they expect to induce him to go on with the war!"

Dr. Liebknecht had scarcely finished this last sentence when as if by magic a sudden excitement broke out. Near the spot where the doctor and his friends had been standing the crowds surged back and forth. The great multitudes in the palace grounds had the appearance of an immense sea whose surface was every inch covered with human heads, those of men and women. The children became terrified. The shouts of the grownups and the terrified shrieks of the children added vehemence to the scene.

The next moment I see Comrade Liebknecht pulled down from the stand. His friends also follow. Then I see lists raised. I suddenly discover that the jostling of the crowds about me has carried me farther away from the spot where a riot is in progress. I again elbow my way toward where the doctor and his companions have been pulled down from the stand. I have made some progress when suddenly I find myself being swept backward by a huge human wave.

Big Whips.

In spite of my wish to see what is going on behind me I am being carried away farther and farther. Several hundred thousand panic-stricken souls are rushing toward the streets and the ave-

### PRESBYTERIAN ASSEMBLY IS DISCUSSING UNION

Winnipeg, June 12.—At the opening of the Presbyterian General Assembly this forenoon it was announced that the church union discussion would be formally opened this afternoon and a vote would be taken on Wednesday evening.

Rev. Dr. Clark, Montreal, first will present the report of the union committee. Rev. Principal Gardiner, of Knox College, Toronto; Rev. Dr. McKinnon, of Regina; and Rev. Dr. Duval, of Winnipeg, will make addresses supporting union. Against union the leading speakers will be Rev. Dr. Robert Campbell, the veteran clerk of the assembly; Rev. Dr. Ephraim Scott, editor of the Record, Montreal; Rev. W. G. Brown, of Red Deer; Rev. Dr. McQueen, of Edmonton; and Rev. Dr. Clay, of Victoria. Rev. John Pringle also will speak.

### CANADIAN BAR ASSN. TO MEET AT TORONTO

Toronto, June 12.—The annual meeting of the Canadian Bar Association will be held at the King Edward hotel on Thursday and Friday next. At the opening session the delegates will be welcomed by Sir William Meredith, chief justice of Ontario, and John Hooley, K.C., LL.D., after which the president, Sir James Aikins, K.C., will deliver his inaugural address in the evening.

"Did you see my sunburst last night?" inquired the pompous Mrs. Newrich of her poorer neighbor. "No, I didn't," said the neighbor caustically, "but I certainly thought he would if he ate another bite."—Ladies' Home Journal.

**Costumes of Perfect Quality and Cut**

To the discriminating lady our unrivalled facilities for the production of costumes which embody the latest and most becoming modes of the season will appeal strongly. We can assure you the satisfaction that ready-to-wear clothing does not guarantee, and which can only be had from the highest grade European tailors. The best costumes made by Chinese tailors are, in both quality and cut, distinctly Oriental—a fact so obvious as to defy contradiction.

**SATURDAY HALF-HOLIDAY**

**SOME REASONS WHY YOU SHOULD VOTE FOR SATURDAY HALF-HOLIDAY**

**BECAUSE** It will secure the maximum good for the largest number.

**BECAUSE** A Mid-Week Holiday is a disturbance to the normal course of trade, and has been proved by experience to be unsatisfactory, the few hours' respite from business not compensating for its many disadvantages.

**BECAUSE** The workman and his wife will be able to shop on Friday evening and will be free to enjoy THEIR Holiday on Saturday in company with their friends, many of whom may work in stores.

**BECAUSE** A uniform Holiday means united families and increased enjoyment.

**BECAUSE** Wednesday would practically be a "Stay-at-Home" Day, with the rest of the community working, children at school, women folk busy and little or no opportunity for picnics or excursions.

**GERMANS REPULSED WEST OF THE MEUSE**

Paris, June 12.—Three German infantry attacks against the French trenches on Hill No. 304 west of the Meuse, and the positions east of that elevation were completely checked on Saturday night by the French troops, said the official statement issued last evening. Two German detachments penetrated the French advanced trenches in the forest of Apremont, where they were ejected after hand-to-hand fighting.

The text of the statement follows: "Between the Oise and the Alsne our artillery destroyed an enemy works in the woods of St. Marden. "In the Argonne the mine fighting continues to our advantage. At Haute Chevauchee, after we had exploded a small mine which destroyed enemy subterranean works, an explosion of two German mines produced a single crater 30 metres in diameter, the edge of which we occupied on three sides. "On the front north of Verdun there was intense artillery fighting on the banks of the Meuse. On the left bank, two enemy assaults on our positions on Hill 204 and another east of this hill were completely checked. "There was no infantry action on the right bank. "In the forest of Apremont two small enemy detachments which had penetrated elements of our advanced trenches were ejected with losses after a hand-to-hand combat. "In the Vosges the enemy, after a violent bombardment, succeeded in reaching our trenches south of Col. Sainte Marie. A hand grenade counter-attack launched by us immediately drove them back."

**Indigestion Resulted From Bad Case of Inactive Liver**

**Experience Proved That Dr. Chase's Kidney-Liver Pills Were Exactly What Was Needed**

If every sufferer from indigestion would study his case as did the writer of this letter the great majority would find sluggish action of the liver and bowels to be the cause of trouble. It is then an easy step to finding a cure, for there is nothing like Dr. Chase's Kidney-Liver Pills to awaken the action of the liver, kidneys and bowels. With these organs performing their natural functions the system is thoroughly cleansed of all poisonous waste matter and the process of digestion is no longer impeded.

Mrs. W. L. Jones, Hill Spring, Alta., writes: "I have often thought I would write and tell you how much I appreciate Dr. Chase's medicines, especially Dr. Chase's Kidney-Liver Pills. I suffered terribly from indigestion and did not know what was the cause. I got to using Dr. Chase's Kidney-Liver Pills and was so improved that I began to study the malady. I found that the indigestion resulted from a bad case of inactive liver, and as soon as I got the liver working right, I didn't have any stomach trouble or indigestion, the nervous spells vanished and the blues flew away. I am never sick now, but should the old trouble recur, I know how to cure it quickly."

There is a whole host of derangements which disappear when the liver is set right. Biliousness, indigestion, headache, irritability, constipation are a few of the more common results of torpid liver action. By the use of Dr. Chase's Kidney-Liver Pills you can control all such disorders. One pill a dose, 25 cents a box, all dealers, or Edmanson, Bates & Co., Limited, Toronto.

WITH GATHERING MOMENTUM.

The Russians have swept relentlessly forward in fast-gathering momentum. On Saturday General Brusiloff's armies captured 35,499 Austrians and a vast quantity of supplies. This was the largest haul made on any single day since the Muscovites began their remarkable advance a week ago. It increased the total number of prisoners captured in six days to 118,000, which means at least a quarter of a million Austrian casualties. At this writing yesterday's report has not been received, but we may expect to learn of more large captures, for the Russian progress has been so rapid that all the eastern Austrian army groups are imperilled. With his numerous squadrons of Cossacks Brusiloff is able to conduct a swift pursuit, outflanking the fugitives at various points and giving them no rest anywhere.

The Austrian line has now been pierced at many places along the 226-mile front. In Volhynia the forcing of the Stryk at Lutsk makes an enemy stand on that river impossible and it is improbable that they will be able to attempt a serious resistance east of the Bug, fifty miles distant. This retirement would involve the capture of Kovel by the Russians, paving the way for an advance to Brest-Litovsk and the threatened envelopment of a large part of the German army north of the Pripiet. We are yet in the dark regarding developments on the German part of the front, but we shall be very much surprised if von Hindenburg is not seriously contemplating the early retirement of his front to the Bug river line, marked by the fortresses of Brest-Litovsk, Bialostok, Grodno and Kovno, over which the Teutons surged last summer.

In Galicia the Austrians on Friday were making a stand near Tarnopol, which is sixty miles east of Lemberg. That army is in danger of being trapped bag and baggage if, indeed, it does not now form part of the 25,000 whose capture has just been recorded. Farther south the Russians have forced the Strypa and reached the Dniester, occupying Bucacz and Skianka, fifty miles northwest of Czernowitz, the capital of Bukovina. The objective here is the railway which connects Czernowitz with Lemberg, and which forms a junction with the road connecting Czernowitz with Hungary. Thus Russia is aiming at the complete isolation of Czernowitz, the capture of which cannot be long delayed.

With the occupation of Czernowitz most of Bukovina will fall into Russia's possession and the way will be open for an invasion of Hungary along the valley of the Theiss river. These developments, so near her own border, will have a tremendous effect upon the sentiment and policy of Roumania. Not only will it put an end to hostile influences in that country, but it will enormously strengthen the pro-ally interventionist propaganda which it being conducted there. It is not unlikely that with the first signs of the dissolution of the dual monarchy Roumania will jump in with the hope of redeeming Transylvania. But whether Roumania intervened or not Russia with Bukovina in her grip would be able to bargain with favorable prospects for permission to send troops through that country either against Bulgaria or to invade Hungary from the south. We should be greatly mistaken if in such a case Russia did not devote first and foremost some very vigorous attention to Bulgaria, and in this she would have the cooperation of the allied army based upon Salonica. The punishment and collapse of Bulgaria, the triumphant redemption of Serbia and the isolation of Turkey from her Teutonic allies would follow very swiftly. It is impossible to overstate the political and military possibilities Russia's drive against Austria has raised in the Balkans and the entire Near East.

The Russian offensive indubitably has put Germany in a terrible quandary. At its present rate of progress it is well on the way to the destruction of the Hapsburg empire, for at this stage of the war Austria cannot rally from the blow she has received by means of her own resources. Indeed she is in a fair way of losing half of her eastern armies. She cannot fill the gap from the Italian front, for any considerable weakening there would mean an Italian advance into Trentino, along the Isonzo and into Austria proper towards Vienna. We may be sure that Vienna has been howling uninterruptedly to Berlin for aid. Germany can render substantial help only by evacuating Courland in the east, or much of Belgium and France held by her, thereby shortening her line. She will probably try to cling to Courland; on the other hand a retirement in the west would involve serious losses from the allies at best, while it might become a military disaster. In any event it would be a confession of defeat to the German people. More than that, it would bring the allies so near the Rhine, the backbone of German military power, as to enable them to make matters decidedly interesting for Cologne, Dusseldorf, Essen and other important centres by aircraft raids.

prospects therefore are unusually bright. It is observed that German-Americans very promptly declared that they had helped to nominate Hughes, which is a transparent attempt to influence his policy. If he adopts the course so strenuously championed by Roosevelt this particular brand of hyphenates will not ride on the Republican ship, for it would spell the end of "Deutschland Ueber Alles" in the United States. President Wilson will rely upon the record of his domestic policies, which has been excellent, but he will find it difficult to establish his claim to a second term on that ground in the face of his shiftless foreign policy, particularly in regard to Mexico and the great war.

TELL THE TRUTH.

The morning paper no doubt has heard of the fable of the ostrich which buried its head in the sand after it saw the hunter approaching. It was very stupid of the ostrich, but no less stupid than the refusal of our contemporary to publish the report of an important committee of the board of trade because it criticized a law of the Bowser government that was harmful to the business of the country and therefore to the public interest. Our contemporary appears to think that the people of British Columbia are mere children in a nursery, fragile plants in a hot-house, from whom must be kept all unpleasant facts. It is quite mistaken. The public wants the truth about its affairs; it wants to know when our laws are bad and wherein they are bad, so that it can insist upon their rectification. This is too great a province to lean upon the rotten reed of deception, concealment and misrepresentation which forms the tortuous political doctrine of our morning contemporary. Honesty is still the best policy, either in conducting the affairs of a country or in running a newspaper. We can assure the morning paper that its theory that nothing is wrong until it is found out is not shared by anybody with sufficient moral sense to distinguish between right and wrong. The best way to gain and retain the respect, confidence and support of the rest of the world is to show that we recognize abuses when we see them and are not afraid to deal with them. The worst advertisement that can be given to British Columbia is in spreading the impression abroad that the public conscience of the province has been chloroformed by a mercenary press.

THE YPRES SALIENT.

The Montreal Gazette's correspondent at Ottawa says that the Canadian government inquired of the British general staff if the Ypres salient could not be abandoned owing to the serious losses involved in holding it and received a reply that notwithstanding this regrettable fact the position was so important that it must be held.

If that inquiry was made, the action of the Canadian authorities strikes us as a humiliating blunder to say the least. If the Ypres salient were not important the British general staff would not try to hold it, and it is well known that General Joffre desires that the line in this sector be maintained, for more than a year ago Foch was particularly charged with its retention. The abandonment of the salient by the British not only would give the enemy command of a number of important road communications with the French coast, but would involve the alteration of the allied front from Dixmude to La Bassée. More than that, it would be acclaimed by the enemy as a great triumph, second in importance only to the capture of Verdun, and no matter what explanation the British higher command might give, it would greatly dishearten the French and Belgian people, to whose heroic sacrifice we owe so much.

THE COLONEL'S REFUSAL.

Colonel Roosevelt's refusal to accept the Progressive party's nomination for the presidency was curiously expressed. He said he could not accept "at this time." This tentative attitude was very significant. It meant that before definitely committing himself he desired to know the views of the Republican nominee on the grave questions to which he has devoted so much vigorous discussion during the last twenty months. If Hughes stood for the policy which he (Roosevelt) believed to be the most imperative need of the nation in the present crisis his refusal would be permanent and he would give him his support. Above all things Roosevelt desires the defeat of the Wilson administration on the issue which affects the influence, prestige and honor of his country in the eyes of the world.

Colonel Roosevelt's refusal to accept the nomination probably will stand without qualification, for Mr. Hughes has come out with a vigorous denunciation of the Wilson attitude in regard to foreign relations. This indicates that the Republican nominee will bow to the line so strikingly drawn by Mr. Root in his great speech in New York a short time ago. In such a case he will have a clear field as far as any third candidate interference is concerned, and his

should let each talent, though self-proclaimed, run to seed.

Now we understand why Germany—and possibly also Austria—was so desperately anxious for peace on the basis of the war map. But, you perceive, a map is merely a "scrap of paper." Russia is proving that it can be quickly altered, if not torn up.

Our contemporary seems to have enlarged the decalogue. It evidently has added the commandment, "Thou shalt not be found out." We suggest a sermon on that text for next Sunday morning.

Even the Huns are beginning to display some signs of grace. They no longer are either practising or preaching "frightfulness." But probably it is fear rather than repentance that is working on their "innards."

A week and more has gone by since the maritime rule of Britain was broken, yet not a single arrival or departure of a German ship from any port has been chronicled.

The All-Highest accords God a meed of praise for His share in the great Hunnish naval victory in the North Sea. O, most condescending Kaiser!

ALLIES INFORMED GOVT. OF GREECE OF THEIR CONDITIONS

Athens, June 12.—The British minister to Greece, in the name of the entente powers, yesterday presented to the Greek government the demands constituting the conditions upon which the blockade would be raised. As an outcome of the energetic measures adopted by the allied governments, the demobilization of a part of the Greek army is already under way.

## UNVEILED MEMORIAL

More Than Two Hundred Names on Roll of Honor of Metropolitan Church.

In connection with the memorial services at the Metropolitan Methodist church last evening there took place the unveiling of the rolls of honor for the church. The names of 222 men who have gone from the congregation of the Metropolitan church to serve their country were inscribed on these rolls. Eight of the volunteers have given their lives for the empire, and after reading these names there were a few moments of silent prayer by the congregation. Dr. G. A. B. Hall performed the ceremony of unveiling the rolls, which were fittingly inscribed. Mr. Cowell, clerk of the House, Edmont, referred feelingly to the loss which the empire had suffered in the death of so many of her finest men while on duty with the colors. The empire had suffered heavy blows within the last few months, at the Dardanelles, in Mesopotamia, in the work of the German submarines, the rebellion in Ireland, the irreparable loss of Earl Kitchener. But the effect of recent shocks would be to make stronger the spirit of the British empire and bring about decisive accomplishment.

The names of 222 men who have gone from the congregation of the Metropolitan church to serve their country were inscribed on these rolls. Eight of the volunteers have given their lives for the empire, and after reading these names there were a few moments of silent prayer by the congregation. Dr. G. A. B. Hall performed the ceremony of unveiling the rolls, which were fittingly inscribed. Mr. Cowell, clerk of the House, Edmont, referred feelingly to the loss which the empire had suffered in the death of so many of her finest men while on duty with the colors. The empire had suffered heavy blows within the last few months, at the Dardanelles, in Mesopotamia, in the work of the German submarines, the rebellion in Ireland, the irreparable loss of Earl Kitchener. But the effect of recent shocks would be to make stronger the spirit of the British empire and bring about decisive accomplishment.

KING'S DAUGHTERS CONCLUDE BUSINESS

Annual Convention on Saturday Debates Provincial Branch Undertakings

The annual convention of the provincial branch of the King's Daughters concluded on Saturday afternoon after an all-day session, in which the business of the order was disposed of. The election of officers took place in the afternoon and resulted as follows: Provincial president, Miss Letich; secretary, Mrs. L. H. Hardie; treasurer, Miss Alice Henderson; literary secretary, Mrs. Christmas; executive, Mrs. A. S. Morley, Mrs. Griffin, Mrs. McPherson, and Mrs. Hurd.

Reports were read from the twenty-one district circles, in each instance a review of the work showing that the exceptional responsibilities incident to the war had been met without any disorganization. The members showed great interest in the report of the Victoria Circle, which was devoted largely to a description of the rest room in Courtney street, where between forty-five and fifty girls are to be found at the luncheon hour daily. The sum of \$2,222.94 had been raised in the Vancouver District Circle, of this sum \$2,222.42 having been expended in relief work and other responsibilities of the circle.

Surrey District Circle reported giving much money to the local Friendly Help Society, as well as assisting in helping cases of sickness and sending clothing to families that required it.

Cloverdale Circle reported having raised \$158.50 during the war and assistance had been given the Red Cross, the Orphanage, and the Victorian Order of Nurses. The work of the provincial branch as a whole, and about which there was much discussion, was the King's Daughters' hospital at Duncan. This institution, like many other benevolent organizations, was suffering financially as the result of the war, although its scope of usefulness had increased. It was agreed by the convention that the annual interest of 8 per cent on the \$5,000 mortgage might be assumed with benefit by the King's Daughters. This, it was felt, would relieve the directors of anxiety and would release the funds of the hospital for their intended use.

A suggestion that the order undertake the following after the war met with approval of the convention:

- (1) The establishment of small factories in each district under an organized body of managers to supply those things which could not be made at home and which were at present imported from other countries.
(2) The acquisition by the King's Daughters of a farm where girls could be trained in up-to-date farm methods and disabled soldiers and soldiers' widows employed.

An invitation from Vancouver to hold the next annual convention in that city was accepted. Before adjournment votes of thanks were passed to Miss Letich and retiring officers, the King's Daughters of Victoria, for hospitality to visiting delegates; the Alexandra Club, Mrs. Currie, of Cloverdale, for printed leaflets, and the press.

The following is the complete list of delegates to the convention:

Cowichan—Mesdames Elkington, Fry, Macdonald and Whitmore, Misses Kathleen Whitmore, Q. Springett and Margaret McPherson.
Victoria—Mesdames M. E. Deane, M. A. Bone, M. I. McMicking, Misses J. G. Roberts, E. Clearidge, H. Harkness and M. H. Jameson.

Interesting Experiences of Automobile Party on Visit Here

A trip of four thousand miles by automobile, involving all kinds of physical conditions and ranges of temperature, is not lightly undertaken. However, the party of Mr. and Mrs. J. H. Denison, now at the Empress hotel from Boston, Mass., has just completed a journey across the continent in a Cadillac car.

Many difficulties are to be encountered after leaving Kansas City, the route to the southwest being taken by the famous Santa Fe trail. Almost every class of road and trail tested the wearing and non-slipping character of the tires. The country to be traversed included lofty plateau in New Mexico and Arizona, sandy deserts and mountain roads broken and almost impassable after the winter rains. By way of the Needles the California state line was crossed. From Southern California the party came north by way of Sacramento and Eastern Oregon to Seattle, arriving here on Saturday. The present plans contemplate a journey to the west coast, and thence from Nanaimo to cross to Vancouver.

At Flagstaff, on the Colorado plateau, is situated the Lowell observatory, and here a visit was paid, as well as to a number of the cliff dwellings and other aboriginal remains of the southwest, to which so much attention has been given by anthropologists and archaeologists.

Mr. Denison mentions that in crossing the deserts by car, if the car was once permitted to leave the stony furrows, it would plunge into the sand, and every effort would only increase the predicament. It is necessary under the circumstances to jack it up, and use planks to get the car in the rut again. On one occasion the party had to camp overnight in an arroyo while relief was secured from a neighboring town, after the car wheels stuck in the sand. The passes of the Sierras presented some difficulties, with the roadways fractured by storms, and yawning chasms threatened destruction of the party, had a mischance carried the car over the precipice. Mr. Denison says that so far as food is concerned, if the party keeps close to a railway line, hotels of a more or less satisfactory character are found, but on a few occasions things were not so comfortable when the car left the beaten track. One visit they paid was up to a typical gold camp, when a sudden strike had brought in the usual medley of a mining camp, the people living in tents pending the erection of more stable quarters.

For the last two years Mr. Denison has wintered in California for health reasons, having formerly escaped the rainy season on this continent by visiting Egypt. Mr. Denison was formerly in the Congressional ministry, and held important charges in Kansas City, New York and Boston.

Mrs. J. Minto, 132 South Turner street, has returned after a two months' visit in the east.

Geo. A. W. Robertson and Mrs. Robertson, of Charlottetown, P. E. I., are at the Dominion hotel.

Her numerous friends both in Victoria and Nanaimo will be glad to know that Miss Stockett, whose home is in the latter place, has sufficiently recovered from her recent operation to leave the Jubilee hospital, and is now staying with Mrs. Joshua Kingham, Belmont avenue.

Mrs. G. A. McTavish announces the engagement of her daughter Dorothy Olivia, to Mr. Edwin Heddle, of the Canadian Bank of Commerce, San Francisco. The wedding will take place on Wednesday, June 21, at 2 o'clock at the Church of Our Lord, Reformed Episcopal.

At "Breadalbane," the ministers' residence, on Saturday evening, Rev. Capt. Campbell, chaplain to the 50th Regiment, Gordon Highlanders of Canada, celebrated the marriage of Pte. Hugh Matheson, of the 11th C. M. R., and Miss Johanna, daughter of Mr. and Mrs. D. McDonald. The bridegroom was supported by Ptes. Neil Mackay and Donald Macdonald, of the 11th C. M. R. The bride, who was unattended, looked very handsome in a traveling suit of navy blue serge.

The "Beth-Mihle" (christening) of the son of Mr. and Mrs. Jacob Dobrin, was held on Sunday afternoon at their home, 1682 Davie street. The child

was christened Justus Herman Dobrin. Many friends were present, including Alderman Alex. Peden, Dr. J. Friedlander, Dr. S. M. Hartman, Capt. Dr. M. Raynor, Dr. H. B. Rosenburg, of Vancouver, and Mr. and Mrs. Harry Johnson, of the Pantages theatre. The grandfather, I. Waxstock, acted as godfather. There were thirty guests present and all responded to the toast and wished the newcomer well.

GARDEN FETE TO-MORROW

Victoria Nurses' Club Holding Affair at "Cloverdale" in Aid of Red Cross Funds.

A pleasant afternoon and evening in the most charming country surroundings is promised patrons of the garden party to be held to-morrow under the auspices of the Victoria Nurses' Club at "Cloverdale," Cloverdale avenue.

The music provided by the band of the 103rd Battalion, which has been given permission by Lieut.-Col. Henninger and officers of the unit to play on this occasion, and the bright vaudeville entertainment which is to take place in the evening will make the event one of the biggest summer attractions of the year. Half of the proceeds are to go to the Red Cross, Ward II. branch.

Many people from the city will no doubt wish to attend the proceedings, and for their benefit buses will run to the grounds starting from "Two Jacks" store, Government street. The garden fete will open at 3 o'clock in the afternoon, and will continue until late in the evening. As the moon will be near the full the latter part of the entertainment will be particularly attractive.

## OUTLAWS DEFEAT WESTS IN 13 INNINGS

### Johnny Cummins Plays Sensational Ball; LaLonde Steals Home With Winning Run

Pinkie Grudle's Outlaws nosed out the Wests in a sensational 13-innings game at the Royal Athletic park yesterday morning, by a score of 4 to 3. Both twirlers pitched good ball, Babe Fortner having fine control for a south-paw, while Shakespeare, although hit freely, always tightened up when hits meant runs.

The Outlaws were leading by a 3 to 0 score when the Wests came to bat in the ninth inning, but the latter put over 3 tallies, tying up the game. In the twelfth the Outlaws filled the bases with only one out, but Shakespeare tightened up and retired the side. In the thirteenth LaLonde hit to the infield and reached first on a raw decision by the umpire, stole second, third and home, winning the hardest-fought game of the season.

The playing of Johnny Cummins was one of the features of the game, his fielding being perfect, while he put down one of the best perfect bunts. Johnny is a natural ball-player, and will likely be grabbed by some of the Northwestern League teams before long.

## ALBIONS ARE AGAIN DEFEATED BY VICTORIA

### Five C's and Incols Win; Bowlers Were All in Good Form

The Albion and Victoria teams met at Beacon Hill on Saturday in beautiful weather. The Victoria eleven having choice of innings batted first. Hill, 48, playing a good game, and Sargent, ably assisting, scored 43. York just obtained double figures, the rest totalling 13 between them, and with 4 extras the total reached 135. After the tea interval, the Albion opened with Ismay and Gregson, the former being given out for an appeal for a catch, without receiving the benefit of the doubt. He scored 11. Leadbeater made 13, Stephenson 13, not out, and the rest totalled 4 between them. As there were no extras the final total was 46. The Albion team had only 10 men. Verrall bowled exceedingly well, obtaining 7 wickets for 15 runs. Victoria in their second attempt scored 49. Verrall 19, Shepherd 12 and Wyles 10, not out. Hudson obtained the majority of the wickets, 6 for 26 runs.

The Albion in the second innings went for the runs and obtained 131 for 5 wickets, when the odd of time put an end to their chance of winning. They required only 19 to win, with 4 wickets to fall. Ismay, doing the lion's share of the work, obtained 56. Parsons 19 and Stephenson 15. The fielding was good on both sides, but a few dropped catches on the Albion side in the first innings lost them the game. The overhead catch at leg by Gregson, well (one hand) that dismissed Booth (Victoria C. C.) was a gem. The score follows:

### FIVE C'S WIN EASILY.

At the Jubilee Hospital grounds on Saturday afternoon the Five C's defeated the Congregationals with very little effort, the first two batters for the Five C's carrying their bats for more runs than the Congregationals had only nine between them in their first innings. The feature of the game was the sensational one-handed catch made by Davis, of the Congos, when he retired Nichol in the first innings. The Congos had only nine men on the field and Capt. Payne and Ranley, of the Five C's, helped them out in the field. The score:

## This Invention For Rupture Sent On 60 Days Trial

### Won't Cost You A Cent If The Two Months' Test Doesn't Prove All Our Claims

### Away With Worthless Trusses Like These

You can make a thorough prove-it-to-you test of this guaranteed rupture holder without having to risk a single cent.

It doesn't keep your rupture from coming out or bothering you in any way—in spite of any work you do or any other strains—then it won't cost you a cent.

The Only Thing Good Enough To Stand Such a Test

A mere try-on like at a drugstore, can't possibly prove whether a truss or anything else for rupture is going to do any good.

Neither is just a few days' trial a safe test. A truss may seem alright the first week or so and then prove utterly worthless.

But you can't possibly make a mistake after sixty days' trial.

And there is only one thing of any kind for rupture that you can get on such a long trial—

Only one thing good enough to stand such a long and thorough test—

That is our guaranteed rupture holder—the famous Clute.

### Made on New Principles

The Clute is so radically different from everything else for rupture that it has received eighteen separate patents. Made on an absolutely new principle—far more than just a truss.

It has so thoroughly proved its merits in nearly 30,000 cases—that surgeons in the U. S. Army and Navy and physicians in all parts of the world now recommend it instead of advising operation.

Will Save You From Operation

A rupture can't possibly be relieved—even if kept from growing worse—unless protected against all strains and

phy. Two-base hits—Brown, Fitzsimmons. Three-base hits—Bohne, Lead, Thompson. Double play—Wolfer to Wuffli, Left on bases—Vancouver, 8; Tacoma, 6. Struck out—By Barham, 5; Leonard, 4. Bases on balls—Off Barham, 2; off Leonard, 6. Passed ball—Cheek. Time—1.30. Umpire—Fineran.

### CRICKET JOINS.

W. G. Clark, a late member of the Albion C. C., who has joined the colors, has four sons at the front and a daughter a Red Cross nurse.

constantly kept from coming out. Just as a broken bone can't "knit" unless constantly held together.

And that is the curse of wearing elastic or spring trusses—not one in twenty ever holds successfully—addresses of sooner or later make operation absolutely necessary instead of preventing it.

But remember the Clute is guaranteed to hold—and won't cost you a cent if it doesn't—And in addition it provides the only way ever discovered for overcoming the weakness which is the real cause of rupture.

It does that entirely automatically—without any attention whatever from you—And has thus brought complete recovery in thousands of cases that seemed almost hopeless, and has saved thousands of people from having to risk their lives under the surgeon's knife.

### No Belt, No Leg-Straps, No Springs

The Clute does away entirely with the curse of wearing belts, leg-straps and springs. People who have tried it say it is as comfortable as your clothing. And it is waterproof—will hold in the bath. Also perspiration-proof. Easily kept clean.

Don't send any money—don't take any risk. Just write for our free book and find out all about it. This sensational book—(cloth-bound, 32 pages, 20 separate pictures, and 20 photographic illustrations)—is full of facts about the ruptured never before put in print.

It shows why elastic and spring trusses are a crime—how they are the ruptured man's worst enemy—why the law should stop

### TO NAVIGATE SHIP VIA TORRES STRAITS

**Capt. Eagles Plans to Take Golden State Over New Route to Durban**

Should the present plans of Capt. Eagles, master of the American schooner Golden State, materialize, this vessel on her forthcoming voyage to South Africa will sail over a course never previously attempted by sailing craft plying from British Columbia.

The Golden State is under charter to carry a full cargo of lumber from Vancouver to Durban, South Africa. Instead of sailing the vessel around Cape Horn, which route is invariably taken, Capt. Eagles proposes to set a course across the Southern Pacific ocean and then navigate his ship through the Torres Straits, separating Queensland, Australia, from New Guinea, through the Arafura Sea, skirting the Malay, and thence across the Indian Ocean to Durban.

Capt. Eagles says the Torres Straits are now well marked with aids to navigation, and he contends that this is the much shorter route. On his recent voyage here from Port Natal, Capt. Eagles brought his ship around the south coast of Australia, and it was during this trip that he decided to make the return voyage via the Torres Straits. This is a wide waterway in which sailing vessels are easily navigated. This route has never been extensively used in past years owing to the lack of navigation aids, but this drawback, Capt. Eagles says, has now been remedied.

The Golden State, after completing discharge of ballast in the Royal Roads, shifted on Saturday to Vancouver to go on berth at Hastings mills. Before loading, however, she will be hauled out at the B. C. Marine, Ltd., for overhauling.

#### DR. NELSON ON VACATION.

Dr. Nelson, the quarantine doctor at William Head, is taking a vacation, and during his absence all inbound ships will be looked after by Dr. Fraser. Dr. Nelson is making a trip to Alaska, accompanied by Mrs. Nelson.

#### ESTEVAO OUT TO-MORROW.

The Dominion lighthouse tender Estevao will get away from Port tomorrow morning for northern B. C. While in the north the Estevao will change a number of carbide beacons to the Aaga system.

### GEORGE TAKES FIRST SAILING TO ALASKA

**G. T. P. Inaugurates Its Summer Tourist Schedule to Points in the Far North**

Inaugurating the G. T. P. summer schedule to points in Alaska, the steamship Prince George, Captain Donald, arrived at 2.30 p. m. and got away from port at 3.30 p. m. to-day, her itinerary taking in Ketchikan, Wrangell, Juneau and Skagway.

Owing to the change in the schedule the southbound run from this port to Seattle was cancelled, the Prince George, following her arrival at Vancouver on Sunday, being dispatched direct to Seattle to permit her to sail from the Sound terminal at 9.30 a. m. to-day. During the summer months the fine passenger steamships Prince Rupert and Prince George will alternate in the G. T. P. service to Alaska, the round trip occupying ten days.

The placing of these steamers on "The Midnight Sun" route has attracted wide attention, and in view of the large advance bookings and the numerous inquiries regarding the service, the G. T. P. anticipates securing a large share of the northern tourist business during the present season.

Capt. C. H. Nicholson, manager of G. T. P. Coast steamers, says that the total allotment for the first five or six cruises has been booked in the east. He looks for a record travel season to Alaska. All the most interesting points along the British Columbia and Alaska coasts will be visited by these vessels, including the great Taku Glacier and northern icefields. The steamers will remain at Skagway a day to permit tourists to take a trip over the White Pass railroad to Whitehorse.

When the steamer Prince George leaves Vancouver at midnight all her first-class accommodations will be taken up.

To-morrow night the steamer Prince Rupert, Captain Duncan McKenzie, which has been lying here for the past week overhauling, will leave Victoria for Seattle, and at 9.30 a. m. Wednesday morning she will sail north again, arriving here at 2.30 p. m. en route to Prince Rupert and Anxox.

The following were among the passengers sailing from Victoria aboard the Prince George to-day: Lewis Marks, for Prince Rupert; R. A. Renwick, bound for the upper country; E. G. Smith, V. P. Roman, Thos. H. Rea, Miss Mackintosh, for Winnipeg; Dr. Nelson and wife, for Skagway; Mr. Surth and party, for Skagway; Mrs. Dermody, Mrs. Shepherd and Mrs. Nelding and daughter, bound for Juneau.

### ONE NORWEGIAN AND ONE SWEDISH VESSEL SENT TO THE BOTTOM

Ynuiden, Netherlands, June 12.—Fifteen members of the crew of the Norwegian steamship Bur, of 1,943 tons gross, have been landed here. They report that their ship was sunk by a mine or a torpedo.

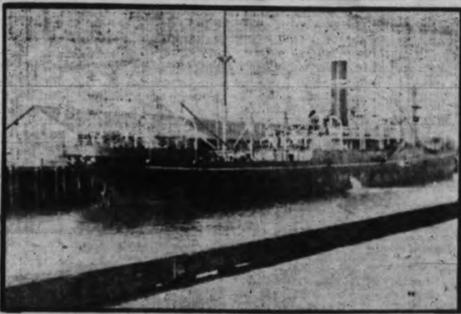

London, June 12.—A Reuter dispatch from Malmo, Sweden, says the Swedish steamer Emmy has been destroyed by a mine off Falsterbo. The dispatch says one of the crew was killed by the explosion and four were drowned.

The Emmy was a vessel of 496 tons, built in 1872.

The Pacific Coast Steamship Company's steamer President, which was five hours late in leaving San Francisco, is not looked for here before 5 p. m. to-day.

The steamer Strinda is reported to have sailed from Shimonezaki on June 9, with Oriental cargo for Vancouver.

### STRUCK REEF IN ORIENT

O. S. K. LINER TACOMA MARU.

Hongkong, June 12.—The Japanese steamer Tacoma Maru, from Tacoma, May 6, arrived here after striking a reef. She is being docked to be surveyed.

### MORE MEN REQUIRED FOR NAVAL RESERVE

**R. N. C. V. R. Recruiting to Replace Those Who Have Been Sent on Active Service**

Additional men are required for the Royal Naval Canadian Volunteer Reserve to replace those who have recently gone on active service. It was stated to-day by Commander J. T. Shenton, R.N., officer commanding the R. N. C. V. R., that 50 men are needed to bring Nos. 1 and 2 Companies up to full strength.

The R. N. C. V. R. has supplied a large number of men in recent months for service with the British forces afloat, and some have also been transferred to the motor boat patrol service. Only recently another large party of naval volunteers went east from the Esquimalt station.

Since recruiting was started quite a number of men have come forward, but the senior service eyesight test having been responsible for the rejection of a number of good men. Rejection for the naval service are being sought on at the Esquimalt dockyard, and also at Vancouver, where Lieut. Harper is in charge of the recruiting station.

### COAST LUMBER VESSELS TIED UP INDEFINITELY

San Francisco, June 12.—Yesterday was observed as a holiday along the waterfront, and no conferences were held either of employer associations or unions. In spite of the truce by which the members of the longshoremen's union agreed to return to work pending an adjustment of their claims for better pay and different working conditions, the lumber industry, it was announced, would not resume activity.

The retail lumber dealers announced during the longshoremen's strike that they would suspend business. This suspension, it was said, would continue indefinitely, and it was further announced that coastwise steamers engaged in the lumber trade would be tied up until a definite agreement as to labor compensation and working conditions had been reached.

#### STEWARDS RETURN TO SHIP.

The stewards of the G. T. P. steamer Prince Rupert have returned to work on the former basis and the vessel will leave at the regular sailing time tomorrow night for Seattle. She has completed overhauling, and with other vessels of the company's service, is now in excellent shape for the season's northbound travel.

### KAMAKURA IS DUE EARLY ON WEDNESDAY

**Inbound N. Y. K. Liner Spoken From Seaward; Teucer is Also Expected**

Completing a passage of 15 days, the Nippon Yusen Kaisha, liner Kamakura Maru will arrive in port early on Wednesday morning.

Wireless advices to this effect were received to-day by W. R. Dale, local agent for the Japanese company. The liner is bringing in a full cargo and a big list of passengers. Over 300 tons of freight will be discharged at this port, including about 100 tons consigned to Vancouver.

No arrival time was given in the radiogram, but it is expected that the Kamakura will reach William Head shortly after daybreak.

Another Oriental liner due here this week is the Flu Funnel steamship Teucer, which is expected to put in an appearance also on Wednesday. The Teucer has 11,000 tons of cargo and will unload 300 tons here and 1,500 tons at Vancouver. After discharging the whole of her inward cargo the Teucer will load for a voyage to the United Kingdom via the Panama canal.

The Harrison Direct steamer Barrister, which has been delayed at San Pedro several days owing to the longshoremen's strike, may succeed in reaching port this week, but the local agents state that as yet her movements are indefinite.

Two Oriental boats are scheduled to sail outward. The Canadian Pacific liner Empress of Russia is due to leave for Hongkong on Thursday, and the following day the Osaka Shosen Kaisha liner Mexico Maru will depart for the Far East.

### PRINCESS MAQUINNA COMING FOR REPAIRS

**Princess Royal Will Temporarily Replace Her in Vancouver-Granby Service**

With her return from northern British Columbia, the C. P. R. steamer Princess Maquinna will be temporarily withdrawn from the Vancouver-Granby Bay run for the purpose of being hauled out for survey and undergoing repairs. It was stated at the office of the B. C. Coast Service this morning that the Princess Maquinna will arrive here on Wednesday from Granby Bay and will immediately be hauled out.

The steamer on a previous trip north touched bottom in the waterway known as "The Sine," North Skeena Passage, and sustained some damage. No. 4 and 5 starboard tanks developing a slight leak. The vessel was declared seaworthy after examination and was sent on another voyage north.

While the Maquinna is off the northern run the steamer Princess Royal will take her schedule sailings between Vancouver and Granby Bay. The Royal will leave Vancouver tomorrow night for the post.

As the damage to the Maquinna is very slight it is expected that she will be out of commission only a few days. The Gulf steamer Princess Charlotte returned to the Seattle route on Sunday afternoon. She will leave here at 4.30 to-day for Seattle.

Tha C. P. R. freight steamer Otter left port last night with a cargo of coal for the Victoria Whaling Company's station at Kyuquot.

### PACIFIC COAST COMPANY DENIES SALE OF SHIPS

In a circular forwarded to its various agencies, the Pacific Coast Steamship Company denies that the company has any intention of disposing of any vessels of its fleet, rumors of which have been in circulation for some time past. The circular says:

"From time to time for the past two years, persistent and malicious falsehoods have been circulated, seemingly originating at Seattle, Wash., that the Pacific Coast Steamship Company or its principal vessels, the Congress, President, and Governor, were about to be sold or acquired by the Pacific-Alaska Navigation Company.

"These stories, which, in spite of continued denials, are periodically renewed, found their latest publication on June 1, and were widely copied by various newspapers.

"We are advised by Wm. M. Barnum, president, the Pacific Coast Company, New York, and also by the president of the Pacific Coast Steamship Company, J. C. Ford, and its vice-president, E. C. Ward, that there are no negotiations now pending with the Pacific-Alaska Navigation Company, nor have there been either with that or with any other company, looking towards the sale of the President, the Governor, or the Congress, or contemplating any change whatever in the ownership, operation or control of the Pacific Coast Steamship Company.

"We are instructed to give the utmost publicity to a vigorous and absolute denial. You are, therefore, authorized and requested to flatly and absolutely deny such false rumors."

SANAGEN contains those elements which are essential to the reconstruction of the nerve and muscle tissues of the human body.

SANAGEN used conscientiously, and according to directions, will clear away that lethargic feeling so common with the business man, whose brain and body grows tired through constant action.

SANAGEN is not a drug, but an honest health-restoring compound made from the same formula as SANATOGEN of German origin, which won such fame throughout the world. SANATOGEN, however, has been placed upon the enemy list, and the proprietors, A. von Wulff & Co., have been forced to close their doors in England where it was manufactured in a small way. SANAGEN is BRITISH in every particular, and its elements being more scientifically blended than in the German product,

give quicker and better results. The World is Asking for SANAGEN Now. It is Wholesome. It is BRITISH.

### INDIANS RESPOND TO CALL TO ARMS

#### Deputy Superintendent General is Visitor Here to Meet Indian Lands Commission

"The Indians of Canada have come out splendidly in the war, both in enlistment of men and of subscriptions to patriotic funds," said Duncan Campbell Scott, deputy superintendent-general of Indian affairs, who arrived with Mrs. Scott at the Empress hotel yesterday, on a periodic inspection visit, and particularly to meet the members of the Indian lands commission, with whom he will confer here.

"A large number of Indians," Mr. Scott said, "have joined the ranks of the overseas battalions, and are making good soldiers. I have requested the agents throughout the Dominion to prepare lists of the Indians who have joined, and a roster will be published later when the names are accurately compiled. I may mention that the 114th Battalion of Haldimand county is to have a half battalion of Indians, mostly drawn from the Mohawks.

"The Indians have contributed about \$25,000 from tribal funds to the Patriotic Aid fund and the Red Cross funds. Grain also from the farms on the reserves on the prairies has been ground into flour and sent forward to the Belgian relief fund. On the whole the department is proud of the evidence of loyalty shown by our aboriginal population in the great war."

In connection with the general progress of the Indians, Mr. Scott referred to the opinion formed of the department's administration by an outside authority, F. H. Abbott, secretary of the board of Indian commissioners of the United States. Mr. Abbott made an exhaustive report recently based on a first hand examination, and bestows praise on the Canadian system for simple legislation, and the greater freedom given to agents in dealing with the affairs of the tribes.

In regard to the department's attitude to the education of the Indians, and incidentally Mr. Scott proposes to visit the new Kuper Island school recently opened. Mr. Abbott's report raised the policy of recognition by Canada of the continued assistance of the churches, whereas the United States adopted the policy of secularization, and weakened the effectiveness of missionary work among the Indians.

Mr. Scott speaks of the continued progress of the Indians in raising their own foodstuffs, and says that a number of the reserves in Saskatchewan, where quantities of food had to be distributed periodically, are now self-sustaining. He also mentioned particularly the Brantford Indians, whose products sell on the market side by side with those of white people, as an example of what can be done with Indians in a section of the country like western Ontario, where they have been in touch with white civilization for a century.

Mr. Scott will spend a week or two between Victoria and Vancouver, and will then leave for the north, intending to go east from Prince Rupert over the G. T. R. R. When he was on the coast last there were not facilities for reaching the northern reserves, and he will now take the opportunity to see the section traversed by that line.

Much valuable work on the ethnology of the Indians is done by the Royal Society of Canada, of which he is honorary secretary, and which recently held its annual meeting in Ottawa.

In the third place, if possible, Oak Bay and Saanich are to be brought into line.

Last, but not least, there are penalty clauses.

Just because this province has suffered under the "one man and a club" government for some years, that is no reason for running the cities the same way. When the Dominion government declares a day to be a statutory holiday, there are no penalty clauses.

It is plain from the above that under the guise of giving their clerks a half-holiday, by this act the big dealers land a heavy blow at the market and the small tradesman. The market and the small tradesman employ no clerks, and yet will be liable to prosecution should they make sales on this half-holiday.

The early closing by-laws were vicious and should never have passed. This is the natural consequence. The next thing will be a "deal in Victoria" by-law with penalty clauses.

Remember, Victorians, this is Prussian legislation. On a certain afternoon it will be as tolerable to steal food as to sell it in this city.

#### SATURDAY HALF-HOLIDAY.

To the Editor.—In all the discussion on this subject no one has yet referred to the evil principles underlying it. In the first place it is perfectly unnecessary for any storekeeper to procure legislative authority to give his clerks a holiday.

In the second place Wednesday and Saturday are the chosen days.

In the third place, if possible, Oak Bay and Saanich are to be brought into line.

Last, but not least, there are penalty clauses.

#### HALF-HOLIDAYS AND PAY DAY.

To the Editor.—While canvassing for votes on behalf of the weekly Saturday half-holiday I have been asked the following question several times: "How can the workmen purchase their goods on Friday night when they don't get paid until Saturday?"

As many will be glad of a satisfactory answer to this question, let me give a reply from actual experience. I had to deal with the same question twenty years ago (1896) when canvassing for the weekly half-holiday in the south of England. Some of the merchants who opposed the holiday emphatically stated that they would not alter their pay-day and interrupt their business system for any half-holiday movement. However, we came through with the half-holiday with a big majority and within a few months pay-day automatically adjusted itself for those merchants who were so combative against us. Before the canvass was over the first to change their pay-day, because they had begun to appreciate the recognized half-holiday themselves and did not want to lose it.

I might also add that this holiday remained in force until the imperial parliament brought in their compulsory half-holiday act, about five years ago, when pay-day again adjusted itself automatically to the new conditions. I have every reason to believe that this city pay-day question will adjust itself, and I cite as an instance that a local firm—Pendry & Sons, Ltd.—make Thursday their week-end and pay their employees Friday.

I believe I am also right in stating that the Colonist employees get paid on Tuesday, while some of the city employees are paid fortnightly. It must not be forgotten that in this city the wholesale and the majority of the retail merchants are most enthusiastic in favor of the Saturday half-holiday and therefore can be relied on to make things as convenient for the wage-earners as possible.

#### BATTLE OF THE NORTH SEA.

To the Editor.—Through the smoke of battle, through the mist which favored the enemy's flight, through the poisoned gas of the lying claim to victory, we now begin to see that Beatty's fleet won the greatest and most gallant victory in all the annals of naval warfare, whether of our empire or any other.

Which of the great victories of Nelson and his heroic sea dogs is to be compared with it? The Greeks at Salamis would have fled from the immense squadrons of Persia, had they not been tricked into fighting in the narrow channel where the Persian advantage of numbers was lost, by their far-seeing patriot Themistocles, and Elizabeth's captains were favored by the elements and otherwise in their defeat of the Invincible Armada.

Beatty, with his light scouting squadrons, was favored by nothing, except a superior speed by which he might have escaped; even the advance force in the waters, lay the most formidable fleet, bar one, that ever sailed the seas, manned by seamen of high courage and efficiency. In front of him was the whole concentrated might of the German navy; they far outnumbered him and heavily out-weighted him in guns and armor. They were near their own waters and shore defences, and on the authority of our own admiralty, their striking force exceeded his by three to one. Behind him, at a distance of five hours steaming, his speed would give him the safety of his own battle fleet, in which was centered the empire's real fighting strength. But he had waited 21 months for the opportunity before him—it might not occur again.

Flinging wireless word behind him to the distant battle fleet, he sprang, unsupported, at the throat of the enemy, maintained a five hours' battle in an inferno of which the mind can form little

conception—we read that sailors in passing merchant-ships were shaken off their feet by this concussion alone—and with the help at the finish of but one battle-cruiser of the grand fleet which had out-paced its consorts, drove the enemy to his port in headlong and broken flight, with the losses that he has been unable to conceal alone, far in excess of those of the light British fleet.

#### SATURDAY HALF-HOLIDAY.

To the Editor.—"A Worker's" letter is a fair sample of the futile and insane arguments against the Saturday half-holiday advanced by non-de plume writers to the press. If "A Worker" would go to Winnipeg to look for his job, he would save a whole lot on freight and express charges, and a loyal citizen enabled to fill his place.

"Who are these 'workers' and 'workmen' who are so upset at the thought of other workers sharing the week-end holiday with them? How deeply concerned they are because they believe the poor merchants are going to the bowwows. How grateful the despairing merchants must be to their staunch champions who have so nobly espoused their cause. How chagrined they must feel at being in the dark as to who their would-be saviours are.

Why don't these knights of labor rise above their modesty, or in other words have the courage of their convictions and sign their names to their lamentations, in order that the bewailing merchants may at least have the opportunity of weeping tears of heartfelt gratitude on their manly chests.

But where are the merchants' walls of woe? It seems to me there is a whole lot of sympathy going to waste which is sadly needed at home. If the merchants were opposed to the suggested holiday their clerks would not be working so ardently and openly for it. Nor would the merchants devote advertising space and spend money to advocate the Saturday half-holiday if they thought it would result in a loss of business.

Successful business men do not jump at conclusions, but arrive at them through a cool, calculated process of reasoning. That is why the big majority of business men are co-operating to bring this movement to a successful conclusion. They know it will eventually result in better business and a "live" Victoria, because they are able to discern the unlimited scope offered for new business, catering to the many requirements of a week-end holiday keeping community.

Retail employees have proved themselves a "live bunch" in organizing, and they may be safely left to organize many amusements for the week-end holiday which will be attractive to residents and visitors alike, and would remove the stigma of our city being dead dull.

"A Worker's" article does not call for any further argument, but if he wishes it, he can have it in the press or on the public platform in the old Victoria theatre on Tuesday, June 13, at 8 p.m. PERCY R. PIKE.

#### THE HALF-HOLIDAY QUESTION.

To the Editor.—We have before us a circular letter purporting to be issued by "The Retail Merchants of Victoria." Never was a more misleading signature appended to any manifesto. The impression those who issued this letter would create is that the whole of the merchants are behind this circular, whereas over 200 of our leading merchants signed and presented a petition to the premier praying that legislation be passed at the last session of parliament to provide a permanent weekly Saturday half-holiday. Out of justice to these estimable gentlemen, the public are entitled to the information.

In this letter the public are warned against "the imposition of a Saturday half-holiday as a dangerous experiment." This so-called experiment is very successfully in operation in a city of over 100,000 inhabitants, and not only are the clerks and merchants pleased with it, but the general public would not tolerate a change to the old conditions. How can such a proposition be classed as an "experiment?"

As far as the Saturday half-holiday being adverse to the interests of the

# Don't Fail to Vote for the Weekly Half-Holiday

## And Be Careful to Place Your X Opposite WEDNESDAY

ANY of the Retail Trades of this City do 45 per cent of their total business between mid-day and closing time on Saturday.

To pretend that this trade can be transferred to Friday night is pure imagination.

Storekeepers expect to be open for business at any reasonable time which best suits their customers.

Saturday shopping has originated and developed from the fact that the shopping public have more time and money to make purchases on Saturday than on any other day.

Wages are paid on Saturday, and working class families are at liberty from mid-day on, to do their week-end shopping together—it is, in many instances, the most pleasurable time of the week.

Outside monetary considerations, the average time a man gets home from work on Friday is 6.30 p.m.; after taking an hour for supper it is 7.30—will he be inclined to go shopping until 9.30 p.m., knowing that he will have to be at work again early on Saturday?

Special food supplies for Sunday are bought on Saturday, most of these are now made and prepared on Friday; if Friday shopping is made compulsory, these goods would then be prepared on Thursday and would thus be three days stale on Saturday.

Victoria is almost without industries and pay rolls, and is spending thousands of dollars each year to secure tourists, many of whom arrive on Saturday—are they to find a City of closed stores and deserted streets?

Public buying is largely a matter of impulse, anywhere from 5,000 to 10,000 people now specially visit the shopping district of Victoria on Saturday—most of them spend some money.

If the stores are closed against this great volume of trade, what effect will it have upon the stability of the storekeepers?

Every time a store closes down, it not only fires the boss but the clerks also.

On Dec. 31 last, more than a million and a half dollars was owing to the City for taxes—and yet it is proposed to absolutely shut down the Retail Trade for greater part of the only busy day in the week.

On seven days in each week our soldier boys at "the front" are sacrificing time, and sometimes life, to uphold the Empire; it is up to us to look after things at home and play the man while they are away.

By all means take a holiday—but on a day when it will least interfere with trade.

On Wednesday next be careful to mark your ballot paper as follows:

Are You in Favor of a Wednesday Weekly Half-Holiday? ..... X

merchants, we would point out that wherever it has been inaugurated it has proved to be the direct reverse. Business has improved in every case, and in a semi-government publication (to be found in the Victoria Public Library) that the general returns were most satisfactory.

In contradistinction to the commercial ruin predicted in paragraph 3 of this misleading circular we would point out that whenever a public holiday falls on Saturday and the stores are closed all day the aggregate business that week almost always exceeds the normal business week. This can be proved by an inspection of any merchant's books. The stores being open to 9.30 Friday evening provides ample facility for those who prefer to shop late.

Replying to paragraph 4, we emphatically state that the vast majority of those actually engaged in the retail trade are, after much thought and consideration (and in many cases actual experience), firmly convinced that any mid-week holiday would prove a serious interruption of business organization, and can not possibly provide the

same opportunities for rest and recreation for clerks or merchants.

Appropos of the "tourist traffic" we direct attention to the well known fact that the majority of our visitors who land in Victoria take their departure in two hours. Why is this? Is it not because we have not yet the facilities to entertain ourselves; much less visitors? This will be remedied by the inauguration of the Saturday half-holiday, as the Saturday half-holiday, as demands for entertainment and recreation will make it possible to have permanent attractions for ourselves and our visitors.

There would be less tax arrears if we had facilities to hold the tourists when we get them, and we should doubtless then find that these people would double the worth of our publicity department. This additional prosperity would soon fill many of our derelict stores.

As far as catering to the convenience of the public is concerned this same argument was used when we were successful in changing the closing hour on Saturday from midnight to 9.30 p. m., and we know that most of the opponents of that change admit our

success in this case. The result will be the same after the Saturday half-holiday has been given a fair trial.

Regarding payment of wages on Saturday this is largely a "man's nest." In all countries where a similar change has been made, all reasonable employers have been only too willing to re-arrange the pay-day. Were this, however, not followed here it would either be imprudence or bad management on the part of the comparatively few weekly wage-earners (for most of us receive salaries monthly) who would find the change a serious inconvenience after the first week.

As the law does not discriminate between the British and alien trader one naturally fails to understand how all the business would go to the foreigner. Surely those who issued the circular in question would not have us believe that the shopping public are going en bloc to Seattle or San Francisco? This is the only construction we can place upon the ambiguous phrasing in this paragraph. We are sure that the voters of Victoria will not be misled.

To those who are honestly in doubt we ask you to give the Saturday a fair

trial by voting for it on June 14. Should it prove unsatisfactory you will have an opportunity to reverse your decision next January, when another referendum will be taken.

For these, and many other excellent reasons we ask you to vote for Saturday.

The names of the retail merchants supporting the Saturday half-holiday will be published. This will prove conclusively that the most misleading feature of the whole circular is the inference that it was issued by "The Retail Merchants of Victoria."

On behalf of the Retail Employees' Organization of Victoria.

NUMBER OF MEN ARE TAKEN IN OPIUM RAID

Remarkable Inlaid Opium Pipe is Among Exhibits Ordered Confiscated

The resourcefulness of the Chinese in excuses is a by-word in every country washed by the Pacific ocean, but one of the strangest explanations for frequenting a place where opium was smoked came from a Chinese tailor brought up in the city police court from 1425 Government street this morning. He had been measuring a man for a suit of clothes in the early hours of the morning, so he said, when the detectives smelt the drug and entered. The tailor and the man taken at the same time were each fined \$15 and \$25.00.

MEMORIAL SERVICE TO-MORROW MORNING

Will Be Held at Christ Church Cathedral, Commencing at 10.30

The memorial service for the late Lord Kitchener to be held to-morrow morning at 10.30 at Christ Church cathedral, will follow the usual burial services of the Church of England with adaptations to suit the changed conditions incident to the special occasion. The service is intended to synchronize with that being held in St. Paul's, London, at the same time.

Very Rev. the Dean of Columbia will be in charge of the services, assisted by Rev. J. Comyn-Ching, chaplain of the 11th C. M. R., who will read the lesson; and Rev. J. L. Stevenson, chaplain of the 102nd Battalion, who will give the address. Beside the organizations previously mentioned who have accepted the invitation to attend the services, the following have expressed their intention of being present: The British Campaigners' Association, the B. C. Federated Navy League, the local branch of the same organization, the Women's Canadian Club.

The dean requests that all invited persons and organizations be in their places well before 10.30, so that the service may be commenced punctually. All such are asked to enter by the door on Burdett avenue.

Lieut.-Governor Barnard, Premier Bowser, members of the executive council, officers of the military and navy, the chief justices and members of the appeal and supreme courts, privy councillors resident in Victoria, Mayor Stewart and the city aldermen, and representatives of the Red Cross, the I. O. O. E. and the Patriotic Fund, will attend. The centre of the nave will be reserved for those invited. The rest of the church will be thrown open to the public.

DO NOT ENCOURAGE PANDORA AVE. OWNERS

General Assessments on Improved Section Are Sustained

It is generally admitted in city hall circles that the most necessary case for special treatment in the way of relief for oppressed property owners is the lower part of Pandora avenue, where several fold improvements have been made. However, with regard to the assessments, the civic court of revision this morning gave no encouragement to the applicants on the improved portion between Douglas street and Cook street, the assessments standing.

P. R. Brown was given an audience most of the morning in connection with his appeals. The two following corners are to have the personal inspection of the court: Fort street and Blanshard avenue, and Quadra street and Yates street.

Mr. Brown secured the reduction of the assessment on the lots forming the southwest corner of the intersection of Fort and Douglas streets from \$146,951 to \$6,000. On View street property the court was unwilling to modify the assessments materially.

George Mellor was heard with regard to the property in which he is interested on Pandora avenue, between Cook and Vancouver streets.

James Forman was heard in reference to assessments on downtown property for which Heisterman, Forman & Co. are agents. Mr. Forman convinced the court that Johnson street, between Broad and Douglas streets, should be reconsidered, and a small reduction was granted for the southwest corner of Douglas and Johnson streets.

The court is not sitting this afternoon on account of the civic finance committee meeting, at which the directors of the Jubilee hospital are being given an audience for the purpose of considering the best method of building a new tubercular ward.

MINISTER IS WITNESS

Hon. W. R. Ross Gives Evidence in Regard to Loans on Fernie. Hotel.

When the supreme court opened this morning H. W. R. Moore, appearing for Hon. W. R. Ross, minister of lands, who is defendant in the action of the Imperial Bank against Ross, Whalen and Pollock, made a statement of his client's defence to Mr. Justice Murphy. He said Mr. Ross has been Whalen's solicitor and the solicitor for the bank at the time Whalen's hotel at Fernie had been destroyed by fire.

Whalen had wanted to rebuild and had borrowed \$10,000 with Mr. Ross's knowledge, but at the bank manager's request he had endorsed Whalen's note and had taken a security mortgage on the hotel and other property on the bank and from Pollock, and second and third mortgages had been given as security. Mr. Ross had no financial interest in the matter. In 1914 the various notes amounted to \$14,805, and one note to cover them all was given.

The hotel was not a success and in September, 1910, Mr. Ross assigned his security to the bank when he came to live in Victoria. In 1910 matters were still unsatisfactory and it was arranged that Pollock was to take over the securities in place of Ross and Whalen was given a year to get the money. He believed that his brother, who had mining interests, would then be able to help him, but this plan had not been successful.

M. A. Macdonald, appearing for Mr. Pollock, said his client had only \$7,000 interest in the arrangement on a third mortgage and later on became interested in the estate of another \$3,000.

He raised as a defence that the Imperial bank is precluded from judgment in taking loans in contravention of the Bank act.

Mr. Ross testified to the facts as stated by Mr. Moore, after S. S. Taylor, K. C., had objected, that no matters should be related by the witness that occurred prior to the making of the note which is the subject of the suit.

Mr. Justice Murphy held that matters which led to the making of the note might have a bearing on Mr. Ross's statement and refused Mr. Taylor's application.

SAY FAREWELL TO METROPOLITAN PASTOR

Social Service Commission Has Luncheon for Rev. C. T. Scott

A farewell luncheon was held to-day by the Social Service Commission for Rev. C. T. Scott, D.D., pastor of the Metropolitan Methodist church, who is leaving for Belleville, Ont., to assume his new charge there. The members of the commission were present in full force, and many paid tribute to the work of Dr. Scott during his residence in Victoria.

Rev. Joseph McCoy, the chairman of the commission, and Rev. S. J. Thompson, vice-chairman, occupied the head and foot of the table respectively, the luncheon taking place in the Y.W.C.A. After the meal, the members adjourned to the hall, where Rev. Robt. Connell presented the address and read the testimonial prepared and signed by practically all the ministers of all denominations in the city.

The testimonial contained an expression of deep regret that Dr. Scott was leaving the city. Very deeply they valued his services to the community and to the commission. He had come to Victoria almost at the inception of the Social Service Commission, and had been closely identified with its work. His influence had been felt both in its organization and in its procedure. In all the problems relating to industrial life, strikes, underemployment and unemployment, intemperance and all other matters in which the society had asserted its disapprobation, he had taken his share with no uncertain voice. His practical wisdom, experience, sense of proportion, readiness to see all sides of a question, his kind and brotherly spirit, never-failing courtesy of speech and manner, had given him an abiding place in the memories of all. He extended every good wish to him in his work in the new field to which he was going.

Rev. Robt. Connell coupled the presentation of the testimonial with the volume of the poems of Canon F. G. Scott, given by the Social Service Commission.

Dr. Scott, who was given ringing applause, thanked the members for their kind expressions and for the memento which he would be glad to have with him in the years to come. He had spent four happy years in Victoria. One of the outstanding impressions of his sojourn here would be the Social Service Commission, an institution which, when he first came into contact with it, was entirely new in his experience. He had already had inquiries from different parts of Canada and the United States asking for particulars of the commission and copies of its constitution. Wherever he went he would endeavor to inaugurate the movement of the kind and would try to act as its missionary in person.

Among those who spoke with warm appreciation of Dr. Scott's fine work in connection with the Social Service Commission and affairs of the community generally were Bishop Macdonald, who paid a sincere tribute to the departing pastor both as social worker and an eloquent advocate of those things which he upheld. Very pleasant associations with Dr. Scott in the work of the Social Service Commission. Others who spoke along the same lines were Rev. J. G. Inkster, for the Presbyterians; Rev. William Stevenson, for the Baptist churches; Rev. S. J. Thompson, for the Methodists, and Rev. Chas. Sykes, for the Congregational community. Hon. W. Mansson, the new cabinet minister, and Mr. Bone were the two last speakers.

APPEAL COURT

Dominion Trust Case Now in Fifth Day; May Be Concluded This Afternoon.

The court of appeal this morning was again engaged in hearing arguments of Joseph Martin, K. C., in the action of the Dominion Trust Company (in liquidation) against the New York Life and other insurance companies. He represents the respondent plaintiff in the action, and sought to show that the late manager, W. B. Arnold, had not committed suicide. His argument probably will be concluded this afternoon. The hearing of the appeal now has lasted since Tuesday forenoon.

Mr. Martin this morning dealt with the evidence of Hodges, the examiner who was to have made an examination in the affairs of the company the morning Arnold died. Hodges was waiting at the office of the Dominion Trust Company to go into its affairs with Arnold at the time the latter shot himself. The appellants had contended that Arnold could not face the subsequent exposure, but Mr. Martin this morning held that there had been no occasion for Arnold to fear immediate exposure, as he had been dealing with Hodges for some months as the examiner of the company's affairs.

ANXIOUS OVER MEXICO.

Washington, June 12.—Increasing excitement and anti-American feeling throughout Northern Mexico is described in to-day's dispatches to the State department. In many cases, it was said at the state department, Carranza authorities appeared to be indifferent to what is going on. Details of the reports were not made public. Officials made no attempt to conceal their anxiety over the situation. All dispatches were read by Secretary Lansing and the more important were sent to the White House. Equally disquieting reports are reaching the department of justice from along the border.

PTE. M. E. BURTON KILLED IN ACTION

Resident at Mt. Tolmie and Left With 30th Battalion; Victorians Wounded

Pte. Mark E. Burton, whose name appears among the killed in to-day's casualty list, resided on Pear street, Mount Tolmie, where his mother is at present living. He left with the 48th Battalion and was later drafted into the 10th. Pte. Burton's father also went to the front and was reported missing about six months ago.

The following are among those reported wounded to-day: Lieut. G. Carstairs, Sergt. Percy E. Nash, Pte. Samuel G. Blanshard, Pte. William G. Pyffe, and Pte. H. C. Lifton, all of Victoria.

Lieut. G. Carstairs, who is wounded and is suffering from shell shock, left here with the 30th Battalion. He is about 23 years of age and has resided here for some time. Lieut. Carstairs was well known in athletic circles, being captain of the Wanderers' football club for the first year after its formation.

Pte. Lifton left with the 30th Battalion and was wounded June 4. Word was received this morning that he is at No. 8 stationary hospital, Wimmerau, suffering from a gunshot wound in the shoulder. He had been with the 7th Battalion since April 1915; was 20 years of age and resided at Beach drive, Oak Bay.

Sergt. Nash probably is the son of Mr. Nash, an attendant at the parliament buildings, who at present is on his annual leave.

Word has been received here that G. Walsh, who was formerly in charge of the meter department of the B. C. Electric, has been wounded a second time and is expected to return to the province shortly. He left here with the 20th Battalion, and after being wounded was taken to the hospital, but on recovering insisted on returning to the front. News has come to hand that he has been wounded again and that he has lost his left hand, which was taken off by a shell.

ADVERTISING CITY

Southern Pacific to Distribute 500 Posters of Victoria at Its Depots.

Five hundred posters advertising Victoria, issued by the Victoria and Island Development Association, are to be distributed among the offices of the Southern Pacific Railway Company in California and Oregon, and are being sent for this purpose to John W. Scott, general passenger agent for the company at Portland.

Mr. Scott was here last week and saw the last poster issued by the Development Association. A letter was received by the commissioner from him this morning asking for 500 posters and undertaking their distribution with a view to encouraging railway travel and having in view also the sending of tourists to Vancouver Island.

LLOYD GEORGE AND THE IRISH PROBLEM

Proposals of Minister Now Before Various Parties; an Imperial Conference

Dublin, June 12.—An official report issued by the Nationalist party concerning its recent meetings gives the history of the situation resulting from Premier Asquith's visit to Ireland and the appointment of Lloyd George to negotiate a settlement of the differences between the Irish factions. The statement says Premier Asquith returned from Ireland profoundly convinced "that the castle government" was completely broken down, and that he made no attempt to set it up again by the appointment of either a lord lieutenant or a chief secretary for Ireland. It gives the proposals of Mr. Lloyd George, formulated on his own responsibility as a result of his consultations with all the parties which would be regarded as the government's proposals. The proposals were:

First—To bring the Home Rule Act into immediate operation.

Second—To introduce forthwith an amending bill as a strictly war emergency act.

Third—That during the interim the Irish members of the House of Commons in Westminster in their full number.

Fourth—During the war, emergency exclusion of the six Ulster counties, which should remain under the imperial government.

Fifth—That immediately after the war an imperial conference of representatives of all dominions be held to consider the future government of the empire, including the government of Ireland.

Sixth—That following this conference and in the interval provided by the War Emergency Act, a permanent settling of all great outstanding problems be proceeded with.

The foregoing proposals were set out briefly in a speech at the Nationalist meeting by John Redmond, who added that no conference had yet been held between the opposing parties, each side submitting proposals to its own supporters. The meeting adjourned after having passed unanimous resolutions protesting against the continuance of martial law in Ireland and condemning both the personnel and the terms of reference of the commission appointed to investigate the recent uprising.

Imperial Conference. London, June 12.—(By F. A. MacKenzie).—Mr. David Lloyd George's plan to have an imperial conference immediately after the war to consider the future government of the empire is a surprising feature of the Irish conciliation scheme. While the Nationalist leaders favor the acceptance of Mr. Lloyd George's compromise, it is still doubtful how far they can carry the pass of the Irish with them. The past month has seen a great strengthening of the irreconcilable elements in Ireland and a great weakening of Mr. Redmond's authority. Irish press opinion to-day is somewhat unfriendly. The unionist Irish Times declares the scheme not a settlement of the Irish question at all, but a postponement of settlement and a complication of the difficulties of settlement.

The Independent Nationalist denounces the scheme as a proposal to mutilate and dismember Ireland, to perpetuate racial difference, to abandon and disown the sturdy Ulster Nationalists and to introduce into the body politic of Ireland, poison and partition. It denounces the scheme as preposterous and outrageous. The Belfast Northern Whig is more sympathetic. The fact remains that both sides would gain enormously under Mr. Lloyd George's proposals, Ulster securing the exclusion of the six counties for which it fought in the Buckingham Palace conference, and Nationalist Ireland securing immediate home rule. Could Irish affairs be discussed from an ordinary, political, common-sense standpoint, acceptance would be assured.

SWEDISH VESSEL SENT DOWN BY GERMAN MINE; NORWEGIAN SHIP SUNK

London, June 11.—Striking a mine off Sandhamn, an island of the archipelago at the entrance to Stockholm, the Swedish steamship Para sank at 5 o'clock yesterday afternoon. The crew was saved. In shipping circles here it is believed the vessel ran into a field of anchored German mines.

The Para was of 1,896 tons gross. She was 266 feet long with a beam of 37 feet and draught of 16 feet. She was built at Sunderland in 1882.

London, June 11.—The Norwegian steamship Prosper III, struck a mine and sank. The first officer of the vessel is believed to be the only survivor. She sailed from Newport News on May 20 for La Pallice, France.

The Prosper III, was of 4,297 tons gross, 364 feet long, and was built in 1912. She was owned in Drammen, Norway.

TO MEXICAN BORDER. Washington, June 12.—Secretary Baker announced late to-day that 1,600 additional coast artillerymen and a battalion of engineer troops from this city had been ordered to the Mexican border for patrol. In all about 14,000 men will be added to Major-General Funston's force.

# REASONS WHY YOU SHOULD Vote For Saturday Half-Holiday

**BECAUSE—** It will secure the maximum good for the largest number.

**BECAUSE—** The Business Week being left unbroken Saturday offers an ideal period for unrestricted freedom; Sunday a rest day.

**BECAUSE—** Nearly all sports and outdoor functions are arranged for Saturday afternoon.

**BECAUSE—** The conjunction of Saturday afternoon with Sunday offers opportunities for relaxation and social pleasure that can be obtained in no other way.

**BECAUSE—** It will enable employees and merchants to join their families in well merited relaxation and permit them to dismiss business from their minds until Monday morning.

**BECAUSE—** It will benefit the merchants by the automatic creation of many fresh demands for holiday, sporting and outing requisites.

**BECAUSE—** A Mid-Week Holiday is a disturbance to the normal course of trade and has been proved by experience to be unsatisfactory; the few hours respite from business not compensating for its many disadvantages.

**BECAUSE—** The working man and his wife will be able to shop on Friday evening and will be free to enjoy THEIR Holiday on Saturday in company with their friends, many of whom may work in stores.

**BECAUSE—** A uniform Holiday means united families and increased enjoyment.

**BECAUSE—** A Saturday Half Holiday for store employees will tend to make the holiday more general, thus assisting the working man to attain his desires in this direction.

**BECAUSE—** It will not break in upon the commercial activities of the community, thus economizing time, reducing expense and cost of living.

**BECAUSE—** Saturday Half Holiday will result in better service from happier store employees and will NOT inconvenience shoppers.

**BECAUSE—** Wednesday would practically be a "Stay-at-Home" Day, with the rest of the community working, children at school, women folk busy, and little or no opportunity for picnics or excursions.

## IN CONCLUSION—

Saturday Half Holiday will increase the Health, Wealth and Happiness of our people, and in order to provide ourselves with recreation and amusement it will compel us to develop our wonderful natural resources—the result being that ever-increasing thousands of tourists will visit us, and we ourselves will learn to enjoy and appreciate that which we so lavishly offer to others.

The canvas for the Retail Employees' Weekly Half-Holiday will terminate in a

## NEW WAR MINISTER ANNOUNCED SHORTLY

Generally Expected Mr. Lloyd George Will Succeed Earl Kitchener

London, June 12.—The announcement of Earl Kitchener's successor probably will be made before parliament reassembles on June 20.

Present indications point to Mr. Lloyd George as the new secretary for war. It is generally expected that the new chief of the war office will be a civilian.

Should Mr. Lloyd George take the post there may be a rearrangement of ministerial duties affecting both the war office and the ministry of munitions. It is considered desirable that he still have some connection with the great machine he has organized.

## CANADIANS HONORED.

## Referendum Weekly Half Holiday Act

Whereas the Legislature of the Province of British Columbia has by the Weekly Half Holiday Act imposed a duty on the Municipal Council of the City of Victoria to submit a vote to the Municipal Electors to be taken at a meeting for the purpose of voting for or against the following questions:

(A) Are you in favor of a weekly Wednesday half holiday?  
(B) Are you in favor of a weekly Saturday half holiday?

Which vote is required to be taken on Wednesday, the 14th day of June, 1916, between the hours of 9 o'clock in the forenoon and 7 o'clock in the afternoon. And whereas the Municipal Council of the City of Victoria has resolved that the vote and opinion of the Municipal Electors of the said City of Victoria, qualified to vote for Mayor, be taken on the said questions upon the said date and between the said hours.

Public notice is hereby given to the said Electors of the City of Victoria, pursuant to the above resolution and legislation, that their presence is desired at the Pottery Building (so called), No. 228 Pandora street, on Wednesday, the 14th day of June, 1916, between the hours of 9 a. m. and 7 p. m., of such of the Electors as are entitled to vote at an election for Mayor to cast their vote for or against the questions quoted above and marked (A) and (B), viz: SCHEDULE B. WEEKLY HALF HOLIDAY ACT. (A) Are you in favor of a weekly Wednesday half holiday? (B) Are you in favor of a weekly Saturday half holiday? Place a cross (thus X) opposite the day you favor for half holiday. The vote will be taken by ballot, and will be conducted in the same manner as an election for Mayor. Of which every person is requested to take notice and to govern himself accordingly. Given under my hand at Victoria, British Columbia, this 5th day of June, 1916. WM. W. NORTHCOTT, Returning Officer.

## BRITISH NAMES MAY BE IN CANADIAN LIST BEARING 9,596 NAMES

Winnipeg, June 12.—A dispatch to the Winnipeg Telegram from Ottawa, says: "The total officers' casualty list resulting from the recent heavy fighting on the Ypres salient, according to a telegram received today by the adjutant general, is 131 killed and 725 wounded, and of the non-commissioned officers and men 6,245 are reported wounded and 1,935 killed. From the extent of these figures, however, it is believed here that British troops are included and information is being cabled for."

## SPLENDID WORK OF THE MOUNTED RIFLES

Heavy Part of the Fierce Fighting at Hooge Fell on Them; Trying Situation

London, June 12.—(By F. A. Mackenzie)—Soldiers' stories from Hooge enable us to realize more fully the terrible nature of the great battle. Individual units were constantly thrown on their own resources since communications sometimes could not be maintained. Communicating trenches were death traps for either side, since both had their range. A new line had to be quickly formed and dugouts made under fire to resist the fiercest German artillery. The enemy obtained an advantage at some points by the early explosion of their mines. The Mounted Rifles, on whom so heavy a part of the battle fell, have many a glorious gallantry to tell. Three sergeants in the C. M. R.'s alone are recommended for commissions. Sergeant Morrison, who carried thirteen wounded into shelter in broad daylight under heavy fire is recommended for general gallantry.

The deeds of heroism which under ordinary circumstances would command the Victoria Cross were taken as a matter of course in this fight, and every man who could, carried wounded comrades in. The Germans' opening advantage in Friday's fighting was due to the nature of the country where owing to their occupation of the commanding artillery positions in semi-circles around Hooge, they brought a tremendous concentration of artillery fire upon one point.

Their plan was to employ many small guns and mortars upon the front trenches while the larger artillery concentrated upon the rear. From "sausages" and "oilcans" 20 17-inch guns they brought everything into play. Artillerymen with whom I have discussed the fight refuse, however, to admit this means a German shell superiority. "They could bring more on this advanced point," they say, "but in artillery fighting generally we have them beaten."

At Hooge, however, their fire was so heavy that every trench became a death trap. Some boys dug themselves further into the trenches, dragging the machine guns and ammunition in and lay hour after hour awaiting until the tremendous shelling from the Germans ceased.

They stepped out and saw the German troops advancing in packed formation, some smoking cigarettes, confident that no man was left alive in our trenches. Then the machine guns got to work making wide gaps in the German formation. The C. M. R.'s, who held the front line here, could mostly only wait and endure while the artillery pestered the support line entrenchments.

After the 4th were cut up the Germans occupied our old front at this point, where they hastily dug themselves in. There was nothing to be done save hold on by the skin of the teeth against the heavy rain of artillery fire. The Germans, after taking our front, commanded many points at close and effective range. Our boys stuck on like limpets all Friday and Saturday and into Sunday. In hanging on under heavy fire many companies were lost heavily.

Friday night's bombing expeditions were undertaken by hundreds who, creeping up to the German new front, punished the enemy terribly. Our boys could see by the heaped-up dead along the communicating trenches how the Germans had suffered. Correspondents who witnessed the great counter-attacks on Saturday morning say nothing could have been more magnificent. "I never saw a regiment go into action so coolly," said one of the 14th Battalion. "They walked quietly ahead into what they knew was almost certain death. Immediately they came into view of the enemy an immense fire from big guns and machine guns was opened up on them. Shells swept in swaths backwards and forwards along the ranks like the ancient scythe-man cutting corn. A few survivors who remained kept on and the 15th Battalion

## 114,700 CAPTURED BY THE RUSSIANS

Total of Austrians Taken Now Stands at That Figure

## PURSUING ENEMY AT MANY POINTS

Petrograd, June 12.—The number of Austrians captured by the Russian forces since the great offensive was started on May 4 is 114,700, according to an official statement issued to-night.

In many sectors of the front, the statement says, the Russians still are pursuing defeated Austrians.

The statement says: "Owing to storms in South Russia and the consequent temporary rupture of telegraphic communication, the reports are delayed and the news from the armies is restricted. Nevertheless it is confirmed that General Brusiloff's offensive continued yesterday. In many sectors of the front we still are pursuing the defeated enemy, and in some places we attacked him hotly. He counter-attacked with desperation."

"The total of our prisoners now amounts to 1,700 officers and 113,000 men."

## WILL HAVE DECISION ABOUT CHURCH UNION

Resolutions Presented by Union Committee of Presbyterian General Assembly

Winnipeg, June 12.—The Presbyterian General Assembly will meet next year in Montreal, according to the decision reached this afternoon. The union committee presented to the assembly resolutions committing the assembly to church union. The members of the committee express their intention of pressing the question to a decision.

Winnipeg, June 12.—The meeting of the Presbyterian General Assembly this forenoon was preceded by a meeting of the anti-unionists, at which final plans were laid for the proposed fight on the floor of the house. The door was closely guarded and only known "ants" were admitted. Nothing was announced as to the result of the meeting. The anti-unionists have been in session each day since the assembly opened in a room in Westminister church set apart for them.

Rev. Dr. John Somerville presented this forenoon the report of the committee on statistics, which showed that the Presbyterian church in Canada has now 333,467 communicant members, a net increase over last year of 7,846. The assembly then took up discussion of the status of aged ministers in the Presbyteries.

Hon. Edward Brown, provincial treasurer of Manitoba; principal Gardner of Knox College, Toronto; and Rev. Dr. A. S. Grant, chairman of the finance committee, will address the assembly this evening on the church budget. It is stated that the budget for 1917 is fixed at \$1,631,000, of which \$1,500,000 is for the western section and \$131,000 for the eastern section. President Murray, of the University of Saskatchewan, said this forenoon that as far as he was able to judge the sentiment on the general church union question in the present assembly was four or five to one.

rushed up and took the German line with the remnant of the 14th." This charge, with the heroic charge of the Princess Pats, which was to recover two lost guns, will rank among the most splendid of the many splendid deeds of those terrible days.

## CHIEF ACTIVITY ON THE YPRES SALIENT

Enemy Repulsed in Sanctuary Wood; Statement Issued by British War Office

London, June 12.—The following official statement was issued last night:

"Since last night the Ypres salient again has been the chief scene of activity. On the southern portion of it, from Hill 60 to a point about 1,500 yards north, the enemy shelled our trenches heavily for about three hours this afternoon. The bombardment was preceded in the morning by the shelling of the town of Ypres and the back area southward."

"North of the Menin roads our trenches were shelled intermittently during the day."

Repulsed. "There were no infantry actions during the day at this point, beyond an attempt by the enemy to rush one of our blockhouses in the Sanctuary Wood. This was repulsed."

"Last night after a heavy bombardment of our trenches between Thiepval, Blumont and Hamel, the enemy, in the course of a raid in the Ancre valley, was able to cut off a few more men who formed part of the wiring party. Five are missing."

"On the remainder of the front there was nothing except minor trench and artillery actions opposite Fricourt and south of Neuville-St. Vaast. The enemy has blown up three mines since yesterday, two in the vicinity of La Bassee road and one near the road east of Viretraat. None of them damaged us. "Rain and thunderstorms interfered with air work the greater part of yesterday. During the fine intervals there was successful aerial raid work, six bombs being taken. A Fokker, brought down, crashed into a field near Hadourain."

## MONTREAL STOCKS

(By F. A. Borden & Co.) Montreal, June 12.—The local market was not active to-day, although there were one or two stocks which attracted considerable attention.

General Electric was quite strong and active throughout the session and Lyall Construction continued its advance, according to a new high price for this movement. The steel group was more buoyant, with an increasing volume of business. Steel of Canada was the strong stock in this group, closing at a net gain of one point. Quite a list of Dominion iron came out, but was not well taken.

In view of the optimism displayed in to-day's Wall street market and the recent Russian successes it would seem that any activity in Canadian securities at this time should be on the side of higher values.

## WEAK CABLES STARTED WHEAT LIQUIDATION

(By F. W. Stevenson & Co.) Chicago, June 12.—A lot of liquidation followed the receipt of the early morning cables which showed extreme weakness. Scattered rains are predicted over the greater part of the rain belt. No wheat was reported sold for export, though indications point to moderate sales. Minneapolis advised of an active demand for good milling grades at half-cent better premiums, and that country shipments are increasing. Reports of conditions throughout the southern and southwestern counties of Nebraska are very promising and in some sections are better than last year and ten days earlier. During the last half-hour of the session an amount of short wheat was covered which gave the upturn.

## RALLYING TENDENCY EXHIBITED IN LIST RAILS STRONGEST IN WALL STREET ISSUES

Prices on Local Stock Exchange Did Better and Feeling Less Indifferent

Prices presented a somewhat less dragged appearance and sentiment was not so generally indifferent as was the case at the previous session. Quotations were higher within a limited scope and influences pointed to a furtherance of constructive doings.

Lucky Jim's recent strength has been based on the improved physical basis of the property. The company is to lease the Ivanhoe mill now nearing completion, according to advice. With this acquisition, profits totalling \$15,000 a month seem probable. Their ore supply never looked better both in quantity and quality.

## TO-DAY'S TRADING ON THE WINNIPEG MARKET

Winnipeg, June 12.—Another weak market developed to-day which at only one time showed signs of rallying. Towards the close the profit-taking caused a rally of 1/2, but some more selling pressure sent the prices down again. Wheat was 1/2 to 1/4 down for July and October, with December unchanged. Oats were 1/2 to 1/4 down, with flax down 1/2 to 1/4. The feature of the market was the strength in December due to spreading operations with Chicago. The general trading was of fair volume. A few longs who carried over from Saturday grew tired and unloaded. Some went short on the day while spreading got quite a little attention.

In the early part of the session there was some good buying. New York futures were in the local market for some July, but this was said to be some more spreading. A little of it probably was for Russell's report told of 200,000 worked at seaboard. Cash wheat was in good demand, with offerings fairly heavy and premiums unchanged.

### AT THE THEATRES

#### DOMINION THEATRE.

It is a widely contrasting role of a duchess and a gypsy that Pauline Frederick is seen in "The Moment Before," the Famous Players feature which is offered at the Dominion for the first three days of the week. The picture is an adaptation of Israel Zangwill's story. The exteriors are photographed in Florida, and are notable for their pictorial effect.

The first reel is of the Duchess who gives freely of her time and money to charity. As her life draws to a close following the accidental death of the duke, the scene fades into a gypsy camp, with the grey-haired duchess shown as a gypsy looking on at a fierce fight of two rivals for her hand. The subject contains an abundance of action. In the role of Madge, Miss Frederick makes a striking gypsy. She becomes the bride of John, the gypsy, through force, not through consent. It is the primitive love-making on the part of the man. The real affection of the woman comes to the surface when she meets Harold, the younger son of the Duke of Maldon. It is through the intervention of two tragedies that the way is cleared for the gypsy to become the duchess.

Pauline Frederick has a splendid role, and is well supported by a strong cast. Thomas Holding as Harold, the younger son, gives a highly finished performance. J. W. Johnson is forceful as the gypsy, while Frank Lense and Hendry Malina make prominent their respective parts. The whole picture is well made, and ranks as one of the best lately produced.

#### MAJESTIC THEATRE.

Edna Mayo takes the leading role in "The Scapegoat," a special three-part drama, which is to be the feature film for the first three days of this week. Virginia Dalmar, success of the theatrical season, is secretly married to Victor Thompson, banker, despite opposition by Ezra Thompson, brother and business associate of Victor. Virginia's scapegoat brother, in a gambling fight, fires at his opponent and, believing he has killed his man, appeals to his sister for aid. She meets him in a cafe, and Ezra appears as she kisses him goodbye. Ezra accompanies Virginia home. Dick arrives as Ezra is trying to kiss her, and in a fight, in which Dick is badly wounded, Victor's brother is killed. Dick flees and Virginia is arrested for the murder. Later, Dick returns to confess the crime, meets his gambling house opponent and is fatally injured in a fight. He is dragged to the courtroom, where he makes a dying confession just as the judge is charging the jury to find Virginia guilty.

"The Perilous Swing," an episode of the "Hazards of Helen," features Helen Gibson, the most daring actress in pictures. There is a surprise as well as a thrill in each of Helen Gibson's feats of daring. In "The Perilous Swing," Helen tosses fear to the winds. When apparently baffled by the raising of the drawbridge, Helen throws her lariat over the end of the girder as it rises in midair and, without thought of danger swings out through space to the opposite bank of the river. This supreme thrill is the climax of a breath-taking single reel "Hazard."

#### VARIETY THEATRE.

In addition to the Bluebird Feature which is the best yet produced by this company, the management of the Variety theatre has secured a number of interesting motion pictures of scenes connected with the war. They include the late Lord Kitchener at a conference shortly before leaving on the fatal voyage; scenes connected with the great Russian offensive; scenes in and around Verdun; latest French howitzers; a distinguished gathering at the French front; Royal Artillery; Dardanelles heroes; great reception at Avonmouth; scenes of the Irish rebellion, showing Sackville street, and other interesting points.

In the Bluebird photoplay, under the title of "The Gay Lord Waring," J. Warren Kerrigan plays the leading role. True, there is plenty of excitement and surprising incidents; there is an absorbing story of a most unusual sort, and there is contained in its five acts practically every element that contributes to first class entertainment—but the feature is designed fundamentally to amuse. There is nothing dull or languid about the action; there is plenty of sensation. Thrilling is the scene wherein a house is destroyed by fire while the heroic rescue of two people goes on. There is sensation and realism in a murder committed during a downpour of rain. There is a scene in a gambling house where money changes hands on the turn of a wheel. There is a horse-back collision between a hapless girl and a reckless young cross-country rider in chase of foxes and there are two kinds of plots against people's lives.

But otherwise "The Gay Lord Waring" is a society drama of engaging purpose—the entertainment of motion picture devotees. Nice looking men and beautiful women abound in a photoplay that fully matches the high standards preceding Bluebirds have established.

#### PANTAGES THEATRE.

Webber's Melodyphiends is an unusual headline feature on the Pantages bill which opened with the matinee performance to-day. These Melodyphiends, so called, are a group of seven girls and three boys, all exceptionally clever musicians, whose versatility extends to a complete line of stringed instruments embracing violin, piano, banjo, mandolin, mandola and the ukelele, the national instrument of Hawaii. They are led by Professor H. A. Webber, dean of the Webber Academy of Music, Portland. These talented musicians have a wonderful repertoire, ranging from grand opera to popular airs. Some of the members are good vocalists as well,

and Specks before the Eyes

Liver derangement is the cause behind these distressing conditions, and only restoration of perfect natural action can effect lasting cure. That is why Dr. Cassell's Instant Relief is so immeasurably superior to the old-fashioned cathartic liver-pills and aperient salts. Such things can only give passing relief by forcing the liver to unnatural action, and have to be continued. Dr. Cassell's Instant Relief strengthens the liver, and so brings about natural action in a natural manner.

Take Dr. Cassell's Instant Relief for constipation, biliousness, torpid liver, sick headache, dizziness, specks before the eyes, flatulence and windy spasms, acidity, heartburn, impure blood, and that dull, heavy feeling which is a sure indication of liver trouble.

the battlefield, but in the peaceful work of administration in the building up of institutions of civilization. His record in Egypt and India entitled him to rank amongst the foremost rulers of the world. In conclusion Mr. Stevenson spoke of another hero, John Edmund Davis, a Baptist missionary who had died on April 23 after twelve years suffering from leprosy which he contracted while serving among the lepers in India. This man also deserved to rank among the greatest heroes of the race. The Baptists of Canada had joined that night in a memorial service to this victim missionary.

At the First Baptist church, Dominion theatre, Rev. J. B. Warnicker preached on the subject, "Lord Kitchener, Empire Builder," taking his text from II. Samuel, I. 19: "The Beauty of Israel is Siala Upon the High Places; How Are the Mighty Fallen." The pride of Britain had fallen, said Mr. Warnicker, referring to Lord Kitchener. Winning the war had been the great thing with this splendid soldier. Britain had turned panicky in 1914 when her small standing army of 150,000 went to the front to face the hordes of the Hun. But, as Harold Begbie said, "Britain Breath'd Again" when Kitchener took the reins. His great name steadied the nation and inspired confidence. Was he dead? In a sense, yes, but in a greater sense, no. Shakespeare, Gladstone, Nelson were not dead. Their spirit lived the greater with their passing. And what of the Empire? Still more majestic should she rise, "more dreadful from each foreign stroke."

The Dead March was played, and Mrs. Baird sang very beautifully "Abide With Me."

## MEMORIAL SERVICES HELD YESTERDAY

### Most City Churches Pay Special Tribute to Late Earl Kitchener

Most of the big city churches yesterday held something in the nature of a memorial service for the late Lord Kitchener.

At St. John's, Rev. F. A. P. Chadwick in the evening preached to a very large congregation; his text being 2 Samuel, 3, v. 38: "Know ye not that there is a prince and a great man fallen this day in Israel?" After referring to the lamentation of David over the great man who had fallen in his army, Mr. Chadwick proceeded to draw a comparison between the late Earl Kitchener's career and that of the Duke of Wellington. But Wellington, he reminded his congregation, had lived to see the victory of Waterloo. Kitchener was not permitted to live to see the fruits of victory, although he could see success coming. The question might be asked: Why did God permit Kitchener to be removed at this critical juncture. The answer was implied in Mr. Chadwick's reminder that God preserved Kitchener through many miraculous escapes in the past for the work which he had had to undertake in the present war. He left one word as his message to the empire to-day: Duty. The duty was two-fold at the present time, viz., to enlist, and to render obedience to God.

The choir sang "Crossing the Bar," and among the hymns sung was "Now the Laborer's Task is O'er," without the last verse.

Rev. S. J. Thompson, at Wesley Methodist church, Victoria West, took the same text as Mr. Chadwick. The nation had, he said, lost one of its greatest and most useful men. Briefly were sketched the work of Kitchener

for the empire in the Sudan, Egypt, South Africa and India. His influence in all these places had been so good it had captured the respect and love of the peoples of Great Britain, and entitled him to a place among the greatest civilizers of the century. Reference was made to Kitchener's power to inspire and hold the confidence of his soldiers, of the government, of the people generally. In person he was temperate and sober, quiet and sincere, and lived a life that assured him of respect. Pte. Jos. Herdman, of the 15th Field Ambulance, was present at the service and also paid a tribute to the late Lord Kitchener.

At the Metropolitan Methodist church special memorial service was held last night. Rev. Dr. C. T. Scott spoke of the dismay that spread through the empire when it became known that Kitchener had lost his life while on his way to Russia. In reviewing his career special reference was made to Lord Kitchener not merely as a military organizer, but also in his administrative and diplomatic capacity.

J. R. Cowell, clerk of the House at Edmonton, also spoke to the congregation at the Metropolitan. Lord Kitchener's death was a great blow, but death was not so great a matter as his life. All through the ages great men had lived and died, but it was their living that mattered. And God had sent men to carry on the good work. Kitchener's great work lived on; his personality had inspired the British empire; his call for men had brought up the greatest volunteer army the world had ever known. In speaking of the great dead soldier, Mr. Cowell recited the splendid lines of Robt. J. C. Stead, the Canadian poet, ending: "For earth is envious of the sea which shelters England's dead at last!"

The Dead March in Saul was played while the audience stood in silence, and Mrs. Parsons sang the "Recessional."

My Servant is Dead.

Rev. Robert Hughes, at Esquimalt Methodist church, took as his text Joshua I, v. 2: "Moses my servant is dead." Lord Kitchener stood related to the Children of Israel of olden times. Like Moses he had led the people through the dangers; like Moses he saw the goal in sight; like Moses he was not permitted to enter the promised land; like Moses he died suddenly, and no man knew his grave. After reviewing Kitchener's career Mr. Hughes took up his personality. He was born to rule, to give orders rather than advice, to express himself in actions rather than words.

The choir sang as an anthem, "Peace, Perfect Peace."

Rev. A. S. Colwell, at Centennial Methodist church, included his reference to the late Lord Kitchener in a memorial service to the men who had fallen on land and sea in the last few months of the war. It was sometimes essential that great men be sacrificed even when they seemed most needed. Even the death of Lord Kitchener might be productive of great results. A great commander, a great soldier, and a great diplomat, had he lived he would in all probability have figured largely in the future administration of the empire. Mr. Colwell's text: "Remember the Lord, which is great and terrible, and fight for your brethren, your sons, and your daughters, your wives, and your houses," summed up the stand of the big volunteer army which had gone forth heroically to fight Germany. Many had fallen, the toll during the last two weeks had been heavy, both on land and sea. Heartfelt sympathy went out to those who had sustained bereavement in the loss of husband, son, or father, but mingled with the sense of loss was one of great indebtedness to those who had made the sacrifice that the nation might be saved.

Special music included the playing of the Dead March in Saul, the anthem, "There Are No Shadows Yonder," and the hymn, "O God Our Help in Ages Past."

Baptist Memorial.

Rev. William Stevenson at Emmanuel Baptist church took as his text Hebrews 11: v. 32 and 33, Gedeon, Barak, Samson, Jephthah, David, Samson, and the prophets had been men who through faith had subdued kingdoms, wrought righteousness. When the nation lost Earl Kitchener she had lost a great soldier, one on whom she had come to rely because of his vast military knowledge and organizing skill. Some of the newspapers and magazine articles had spoken of the dead soldier in a way that made it hard for special honor to be done him in a Christian church. These writers had admired Kitchener as a model soldier and a man who put his heart in the business of winning victories for his people. Already sufficient was known of the man to recognize in him the great qualities of leadership, of genius which would be recognized by posterity. It would be seen that he had done his greatest work not as

## ASPHALT PLANT TO RESTART SHORTLY

Sufficient Work is Now Accumulating; Liquor License Fees Here

It is the intention to reopen the asphalt plant at Garbally road yards in the near future, immediately upon the arrival of the various supplies ordered. Last year the plant, as completed, was only open for a short time owing to the city shutting down on local improvement work after the owners raised so many objections to its continuation under existing conditions.

There was then little repair work to be done, but as each succeeding year goes by, and the asphalt paving gets older, more attention will be necessary, and it may be assumed that considerable openings will be forthcoming for the summer. In addition some new work, like that on parts of Johnson, Broad and Yates streets, will be taken in hand shortly.

The engineering department has been forced to draw the attention of the Sanitch officials to the effect of the heavy municipal truck traveling on city pavements, and it is believed that even more definite damage has been done by heavy hauling on paved roads outside the city limits. At this time of year the surfacing material is naturally softened, and heavy traffic proves a severe test to it.

Except on Oak Bay avenue, where the city has to resurface with a similar material to that now in use, all the surfacing work this year will be done with asphalt, and for the purpose of handling economically, the city engineer is having the work organized so that once the plant is running, there will be sufficient demand from the street work to keep a steady call on the output.

The effect of the reduced hours of sale for intoxicating liquor to eleven hours per day has aroused the hotel men of Victoria to make an appeal to the city council for lower liquor fees. The only way to comply with the request would be to amend the by-law.

The matter will be laid before the city council this evening. As a matter of fact the hotels and liquor licenses in the city contribute \$38,850 per annum, paid in half-yearly fees, or almost half the total cost of the administration of the city police, to the civic exchequer at the present time.

## ROTARY COLLECTION

More Than 30 Loads of Goods Obtained for Red Cross Fund in Oak Bay District.

The members of the Rotary Club who took part in the Oak Bay collection of second-hand material in the municipality on Saturday, gathered together between thirty and forty loads which to-day are being sorted and will be valued and sold at market prices on behalf of the Oak Bay Red Cross funds. Included in the collection was a cart, which is in good condition and when new was worth \$50.

School cadets and members of the Boy Scouts assisted the committee, going round with the carts and collecting the stuff from the houses. They worked under the direction of the Rotarians, one of whom attended each municipal cart. Arthur Mattell, who was chairman of the committee, says that the co-operation was splendid, and the organization worked willingly and quickly all day.

The articles were taken to district depots, which had been established, and from there to a central depot. They will be removed from there when sorted and priced.

Much of the success of the undertaking is due to the wide publicity given by the committee, who distributed hand bills and advertised by posters throughout the district. In several cases where the householders were without goods, sums of money were contributed.

## DIES IN HOSPITAL

Pte. Joseph Newnam, of Mounted Rifles, Passes Away in France.

A telegram has been received from the military department at Ottawa conveying the sad news of the death of Pte. Joseph Newnam, of the Mounted Rifles in Stationary hospital, Boulogne France. Pte. Newnam, a year ago enlisted with the 38th and from that unit was transferred to the 62nd Battalion with which he went to England. After arriving in England he was transferred to the Mounted Rifles at the front and had only been there a short time when his death occurred.

Pte. Newnam was a native of Staffordshire, England, and from there in 1888 he with his parents and rest of family went to San Francisco, where most of his boyhood days were spent. About 12 years ago he came to Victoria and had resided here since. Prior to enlisting he was employed by the Str John Jackson Co. He made a host of friends who extend their sympathy to his brothers and sisters in their loss. His brother, J. J. Newnam, resides on Colquitz avenue, to whom the sad news was first conveyed.

**TOURISTS' EXHIBITION**  
Interesting Collection of Pictures and Objects of Art to Be Shown for Three Days.

A Tourists' Exhibition may not be an absolute novelty in Victoria, but a casual glance through the art annals of the city for the past few years does not betray the existence of such an undertaking in recent times. Consequently the resident public, as well as the tourist, may be attracted to the exhibition which is to open at 10 o'clock next Thursday morning in the Western Art Studio, Union Bank building.

The idea is to portray the natural beauties of the district in comprehensive form so that holiday seekers visiting the Island know what is still undiscovered by them. Nature students as well as mere sight-seers will be interested, as flowers and birds, the giant trees of British Columbia, which are one of the chief sources of wealth to the province, will all be shown in painting and photograph. Some big photographs have been lent by the forestry department and the information bureau at the parliament buildings, showing something of the forests as well as of other things of interest to the tourist.

That Victoria is not behindhand in producing authors and craft-workers will be proved by some of the objects on view. The Indian exhibit, arranged by Miss M. Emily Carr, will comprise curios of all descriptions, and will be one of the particularly interesting sections of the display.

The exhibition is to be open June 15, 16, and 17, from 10 o'clock daily.
